THE YPSILANTIAN is published each Thursday afternoon, from the office, Savings Bank Building, entrance from Congress street. \* TERMS OF SUBSCRIPTION:

Payable in Advance. Family Edition, eight pages: Per year, \$1.50; siz months, 75c; three months, 40c; one month, 15c

single copies, 3c.
Advertising rates reasonable, and made known Address THE YPSILANTIAN, Ypsilanti, Mich

Social Visit.—On Friday last, about fifteen ladies and gentlemen went to Ann Arbor to call on Mr. and Mrs. Crookston, lately of this city. After a hearty welcome to their Ypsilanti friends, they were invited to look over their splendid fruit farm and sampled the various products, now ready for market. At one o'clock dinner was spread under the shade on the lawn, and an enjoyable hour was spent round the festive board. As the sun went down, the party returned home, delighted

RAINFALL.—The blessed rains of last good, coming just in time to save the corn and late potatoes from complete ruin. The fall here was considerable, and north of us it was even more copious, Superior and adjacent districts receiving thorough drenching.

—The official report of precipitation in

Day.		Inches. Day. 0.11 22 05 23 60 24	Inche

inches for June, and the average June precipitation of the past twelve years has been 3.88 inches for the state, and 4.26 for the southern section.

A CLOSE CALL.—Hiram S. Boutell had a narrow escape at the lower paper mill, where he is employed, yesterday morning. He was tightening bolts on the pump while the machinery was running, when a set screw on a revolving shaft caught the sleeve of his "wampus" jacket and comnenced rapidly to wind him up. By admirable presence of mind and the exertion of great strength he resisted the winding process until the sleeves of the jacket and two shirts were torn out and the garments stripped down to the bottom, and he es-

-Mr. Owen O'Neil, who lives opposite ne fair ground, on Congsess street, harness ed a mustang colt to a buggy, Monday morning, and the animal became frightened and ran, throwing Mr. O'Neil violently against a tree, making a frightful cut in his head and knocking him senseless. At last accounts he was improving and promised recovery.

THE HARRISON VETERANS.—Mr. Richard Shipman of this city cast his first vote for Gen. Wm. Henry Harrison, and will, if he lives, cast his next for Gen. Benjamin Harrison. Samuel Hand of this city is another of the same sort, who was at Saline when the big Tippecanoe procession went to Fort Meigs, in Ohio.

-The Cambridge Chronicle, our old paper in Illinois, in naming Harrison veterans there, speaks of a friend and neighbor whom we know well there, Mr. Zaccheus Patten, born in New Hampshire in 1796, who has thus lived under every administration, from Washington down. He voted for John Quincy Adams in 1824: for Henry Clay in 1828, 1832, and 1844 for Wiliam Henry Harrison in 1836 and 1840; for Zachary Taylor in 1848; for Winfield Scott in 1852; for John C. Fremont in 1856; for Abraham Lincoln in 1860 and 1864; for Ulysses S. Grant in 1868 and 1872; for Rutherford B. Hayes in 1876; for James A. Garfield in 1880; for James G. Blaine in 1884; and he is not going to break the record this year.

-The Harrison veterans of this city are talking of organizing a club, to work for the grandson of same name, President and all. They ask all those veterans in sympathy with the movement to meet at Captain Allen's office at 2 p. m., Saturday.

LOVELY POPPIES.—Mrs. Gore of Adams street has grown this year some of the loveliest poppies we have ever seen. A large bouquet with which she favored us contains flowers of at least a dozen colors, from white to almost black, and embracing all shades of red and pink. The shining petals of crumpled silk are daintily edged with white in the majority of them giving a most charming effect. No flower shows more wonderful susceptibility to the influence of cultivation than the poppy. To the order of the Poppyworts belongs the beautiful blood-root which puts out its snowy star-flower in the woods so early in the spring. Like the poppy its betals are easily detached, and a charming flower in the hand may be in another minute only a naked seed vessel. Its odor is quite remarkable, and it is singular that a standard botany like Wood's should de-

scribe it as scentless. -A night-blooming cereus belonging to Mrs. Bovee opened its petals in Hough's window to a delighted crowd of spectators Monday evening. It seems a pity that a flower so magnificent should only have a life of a few hours, and perish before the morning light breaks. Sunrise found it

shriveled and unsightly. The Bazarette keeps hammocks.

PROMISING COLTS.—"S. H. Dodge," is the name of a four-year-old pacer owned

> the last quarter in :341/2. -J. J. Stellwagen's five-year-old, "St. Ignace," of Wayne, after seven weeks handling, trotted a mile in 2:331/2, at the fair ground, Tuesday.

VALUABLE CITIZENS GOING AWAY .-It will be a matter of regret to the many friends of Mr. and Mrs. Watson Snyder of this city, to learn that they have sold their property on Forest avenue and will henceorth make their home elsewhere. Mr. Snyder has been a resident of this city many years, and few men have shown more public spirit or made warmer friendships. He was a man of positive opinions, and while he was mayor, waged a valiant fight against the saloon. While he was agressive and outspoken on political questions, differing widely with many of his most intimate friends, yet no one ever thought the less of him for it. He was honest in his views and earnestly followed his convictions, a characteristic to be respected and admired wherever found. Mrs. Snyder was always quick to respond bunday and Monday did incalculable to calls of charity, and willing to lend a helping hand to every worthy work or project. We regret exceedingly to lose them God speed in their new home.

# The Churches.

Rev. W. M. Gifford of Plymouth is supplying the Methodist pulpit for Mr. Venning, who is suffering from bad health. Mr. G. preached at the union service last Sunday evening.

-The union meeting next Sunday evening will be at the Methodist church. -Mr. Cheney has returned from his vist to Ohio and will occupy his pulpit next

-The Rev. F. V. Stevens, of Oak Park, Ill., a graduate of Yale Theological Seminary, will supply the Congregational pulpit next Sunday morning.

-Principal Sill will conduct service and give an address on Sunday morning and evening at St. Luke's church. Evening service will begin at 7 o'clock.

# Christ Before Pilate.

This world-renowned original painting, by Baron de Munkacsy, has reached Detroit and is now on exhibition in Whitney's Grand Opera House. Our readers who visit that city, on business or pleasure, should not fail to see it. To witness such with only bruises to the arm from a work of art is the opportunity of a lifetime. It is open from 10 a.m. to 10 p.m.

# For Rent.

Good brick house and barn, with premises, corner Adams and Michigan streets -all new and in good order. Enquire first

The following articles, left at the Normal School from the Commencement Dinner, can be found by the owners at the Ladies' Library, any Saturday from 10 to 12 a. m., and from 2 to 5 p. m.: 2 pickle casters, 2 glass dishes, 5 plates, 1 white

apron, 1 platter. The following, left from last year's dinner, are also at the Library: 10 plates, 1 tray, 1 2-quart fruit can, 1 plated fork, 1

plated tea spoon. There are still missing several articlespickle fork, 1 tea spoon, etc. Will the ladies who lent silver for the Normal dinner examine carefully to see if there were any mistakes made in returning it?

The secretary of the Illinois Board of Agriculture has received information of the action of farmers of Crawford county, who have resolved not to raise any wheat, barley, or rye for the next three years in an effort to exterminate the chinch bug. These farmess will exert their influence to this end with the farmers of adjoining counties.

The members of the Alger and Allen republican clubs of the city of Ypsilanti will meet at the office of D. C. Griffen on Saturday evening, August 4th, for the purpose of reorganization. All willing to act with the rapublican party are requested to

The Bezarette keeps everything in photo frames and mirrors.

The Cordary Failure.

YPSILANTI, MICHIGAN, THURSDAY, JULY 26, 1888.

Replevin has followed replevin, to the by Fred Johnson and H. Fairchild, which number of about thirty, under which they bought of Bert Moorman last fall wholesale dealers from Detroit, Chicago, After 60 days handling, he paced a mile Fort Wayne, New York, and Boston, have in 2:31½, going the half mile in 1:13, and taken out an enormous amount of goods, and the courts will have to determine whether the title passes from seller to purchaser when goods have not been paid for -a question which, strange as it seems, is said not yet to have been judicially settled. Upon that depends the validity of the re-

An inventory has been taken, and the iabilities are reported at \$44, 485.09, and and led to acquaintance. the assets \$42,602.40. The chattel mortgage to Mrs. Cordary swells the liabilities \$12,000. That will be contested, and if it shall be overthrown, there would seem to be assets enough to pay all outside claims in full. Mrs. Barbara Durkin's claim against Mr.

Cordary is \$800, beside about \$40 interest now accrued, instead of \$500 as we stated last week. She holds one note of \$600 at 5 per cent, dated Sept. 13, 1886, and one of \$200 at 6 per cent, dated Aug. 12, 1887. The case is one of peculiar hardship. She had earned the money by hard work, and it was all she had.

### Lots of 'Cycles.

League of American Wheelmen held their their influence from our community, but day, and on Tuesday 165 of the members, public sentiment which have marked the while regretting their departure we bid including five ladies, went to Ann Arbor growth of the city of St. Louis. She was by special train and ran to Ypsilanti by now a manufacturer of gloves in that city, furnished a most interesting spectacle as whom she was accustomed to deal. they bowled into town. After dinner at the Hawkins House the party returned to politics," he said, "but every workingman Ann Arbor, accompanied by about a dozen can see that, the cost of materials being members of the Ypsilanti Bicycle Club-Warren Smith, Captain, Will Marshall, Will Culver, Bert Cornwell, Prof. Bailey, of foreign countries. If wages are to be John Dodge, John Harris, Winfred Wal- reduced to foreign rates, we who have lace, Will Wilcox, Bert Comstock and Sim

Salyer being among them. Mr. Junius Beal, of the Ann Arbor Courier, who is an expert wheelman, them all at his residence with ice cream race for a \$40 medal was had while there, and was won by Olin MacFarlane, of Mansfield, O. The race was up the lower in that year, and at a political gathering town hill a half mile, and the winning listened to Senator Howard and Gen. Bingtime was 2 minutes 521/2 seconds. Many ham. The latter dwelt upon the humiliawho attempted it failed to reach the top. tion of our position in the eyes of other na-Five of the Ypsilanti boys made the tions, as a people boasting of the freedom climb—Smith, Wallace, Salyer, Harris and they had won for themselves while at the Bailey, in that order.

girls) mounted their wheels for a run to been visited there by distinguished gen-Detroit, whence they were to return to tlemen with whom he had become ac-Toledo by boat last evening.

Bert Cornwell had a fall near the Normal, on the return from Ann Arbor, cutting his chin; and when just out of this city on employe of the Courier office had a fall and was run over by a companion, breaking his wrist, and had to return to town. The machines all together represented a value of about \$22,000.

The Sentinel is nothing if not critical. It notices the distance to Ypsilanti mentioned by a University publication as five and eight tenths miles, and says, "The earth must be shrinking terribly. The distance from Ypsilanti to Ann Arbor used to be nine or ten miles. At that rate the cities will have a collision in a few years." They undoubtedly will if our venerable friend can bring it on. But before he pokes any more fun at "the star gazers at the University observatory," he would do well to examine the map. Then he may find that the distance from the northwes corner of Ypsilanti city to the southeast corner of Ann Arbor city is only five miles; and from the observatory in Ann Arbor to the nearest electric light in Ypsilanti (which is what the "star gazers" were talking about), is five and eight tenths miles as they said. They do not follow the turns in the road, neighbor, when observing the lights from the observatory.

Here's the Michigan democrat ticket,

Governor—Wellington R. Burt, Saginaw; pro-ectionist; republican until 1886. Lieut.-Governor—William B. Moran, Wayne; tree-trade democrat. Sec'y of State—Thomas D. Hawley, Iosco. State Treasurer—John D. Norton, Oakland. Attorney General—A. A. Ellis, Ionia; green-

acker.
Auditor General—Bartley Breen, Menominee;
reenbacker; protectionist; declined.
Superintendent Public Instruction—Stuart Mac-Member State Board of Education—Charles E. King, Washtenaw; straight democrat. Commissioner State Land Office—S. W. Fowler, Manistee; greenbacker.

The electoral candidates for this and the 9th and 11th districts are greenbackers, and two state conventions were required to construct that remarkable ticket. If they would turn the ticket the other end up and put Charlie King on top, it would look vastly better as a democrat ticket.

Mr. Frank A. Crittenden, late of Evanston, Ill., visited friends here a week ago. He had the misfortune last year to lose his wife, a daughter of Mrs. A. Buck and sister of Mrs. H. A. Taylor, of this city. Since then he has been in business in northern Georgia, and is now about to locate at Knoxville, Tenn., to engage in the lumber business.

Veteran soldiers and others desiring to contribute to the Logan monument fund are requested to consult with E. Holbrook, Post Adjutant, next door to Rogers' book-

store, during the next two weeks The Bazarette keeps genuine warranted Coat's thread.

Notes by the Way.

For The Ypsilantian The pleasure which we derive from a journey depends much upon the intelligence and kindliness of our temporary neighbors. At least so thought your correspondent, as the compartment across the aisle was found to be occupied by a lady whose conversation indicated maturity of thoughts and wide observation of men and manners. The lights of Detroit as seen from Windsor formed a picture of singular beauty; and community of enjoyment served all the purposes of introduction

"How do your Michigan people take the failure of Gen. Alger to receive the nomination?" was soon asked.

"There are no soreheads over our disappointment" was the reply. "Gen. Alger has just issued an appeal to the clubs to maintain their organization and work for Harrison as they would have worked for himself."

"What I admire in republicans is the way they take their defeat," was the comment. And then it transpired that my companion had been, in the early days, an ardent abolitionist and a friend of Gerritt Smith; had, in her girlhood, attended the numerous convention for which the Syracuse of those days was famous; had known The Ohio Division of the National many of the underground railroad managers; and had witnessed, for the last eighsixth annual meeting at Toledo, last Mon- teen years, the wonderful changes in the way of Saline on their wheels, arriving and she gave me this bit of business logic here about 2 o'clock. So many wheels from a German leather merchant with

"I do not claim to understand all your equal, you can compete in the market only by making the cost of labor equal to that come here for better wages, may as well

go back at once." The conversation drifted from the welcome which is now in preparation to greet made the triangle trip with the party, and the return of a private American citizen on arrival at Ann Arbor he entertained to his native land, to the welcome accorded, in the West, to Fremont in 1884 and and cake, and lemonade, which they were again in 1888, and so on back to the in good condition to appreciate. A hill campaign of 1856, of which she related this incident. She had paid her first visit to Michigan

same time they hold another race in bond-All returned to this city in the evening, age. Illustrating from his own experience, and yesterday morning the Ohio boys (and he told how, when in Washington, he had quainted while abroad. We had showed them the city, and had taken them to call upon the President. The gratification which they had expressed at the character the way to Ann Arbor in the afternoon, an of our institutions, which made the head of so great a people so easy of access, was music to his American ears; and so they walked on, absorbed in conversation, he presently found that they were in front of the old slave market which so long maintained its place almost beneath the shadow of the Capitol. It was too late to retreat, and his horror may be imagined when it was found that the "chattel" upon the block was a woman! Not only that, but she was young, and so nearly white that her blushes, as she was subjected to examination by the rude and vulgar crowd, were painful to behold. It would have been a welcome relief, he said, if the earth could have opened beneath his feet and swallowed him up: and in that hour he registered a vow in Heaven to do what one man parents here. could do to free his country from the curse

of American slavery. To Michigan listeners this anecdote of one of Michigan's noble sons was full of

New York scenery wears its old familiar look. The broad grain fields, the weedy pastures, the rounded hills, and the peaceful brooks are all the same. Rain has recently refreshed the fields and everything indicates active growth, but the cold spring has made the season late. Hay is mostly cut, though I saw some clover just in blossom. Wheat is about half cut. It has winter-killed badly, and many fields will hardly pay for harvesting. Corn is small and uneven, but will come on if frost holds off. Canada thistles and daisies, however, do not seem to have suffered by the weather, and promise their usual abundance. In some fields the oats seem to be making desperate struggle for the ascendency, but it is always safe to bank upon the grip and persistency of the thistle.

On political subjects New York state is more thoroughly awake than for many years. The Rochester Democrat and Chronicle, always a lively paper, is full of campaign spirit, and trenchant enough to suit Senator Ingalls. The hosts are marshalling for the fray, and if Warner Miller is nominated for the Governorship a battle of giants is expected. Our traveler is just in from a long tour, with some notes and items of which The Ypsilantian shall hereafter have the benefit.

Brick for Sale.

All parties wanting brick will leave their orders at Wells & Fisk's grocery

The Bazarette keeps corsets, bustles, underwear, aprons. The Bazarette keeps hosiery, gloves, mitts, handkerchiefs.

The Bazarette keeds open early and late.

Miss Carrie Towner and Miss Van Cleve left last Monday for a trip around the lakes. They expect to visit Mariontte, Wisconsin, before their return.

Mr. James Crombie, a graduate of the High School and a former resident, is visiting his mother on Pearl street. He is in the employ of a Detroit drug house, and travels in the west.

Hon. Judge Look was some days in this city, on business connected with the Cordary failure. Mr. W. Fred McBain in the employ of

the Grand Rapids Fire Insurance Co., was in the city last week looking after the interests of his company. Mr. D. M. Huston, formerly a resident of Canton, but since 1886 of Topeka, Kan., has returned to visit his parents and pos

sibly to get into business in this locality He speaks in high terms of Topeka and ays the town is still growing rapidly. Mr. G. G. Powers of Hillsdale, and Mr C. H. Kelsey, since April, in the employ as travelling agents for Mr. Cordary, were in the city Friday looking over the ruins They are Mr. C.'s creditors to quite an

amount, but will probably receive the benefit of the law and be paid in full. Mr. St. James was announced last week as proprietor of the Bee Hive. We cor-

rect this week A. M. Switser, delegate from Bay City to democratic convention that nominated business visit last Friday.

Mr. Stroup, graduate at Normal, has secured first position in Tawas City High School at \$800 a year and leaves at once to hold Normal institute there for a few weeks before commencing his school. May success attend him.

He each, which has not been given.

The police have apparently unearthed in Chicago another dynamite plot more damnable in its conception and purpose than that which culminated in the Haymarket massacre. Three men have so far been arrested and a large quantity of dynamite captured. The police claim to have evidence that the dynamite was to have been used to blow up the board of trade and other public buildings and the homes of all persons prominently connected with the trial and conviction of Parsons, Spies, Engel, Lingg, and Fischer. They have proof, they say, that the men arrested, or their confederates, have already made one or two attempts to carry their plans or some of them into execution.

SENATE.—On the 16th, Mr. Teller said that SENATE.—On the 16th, Mr. Teller said that he was not well enough to speak on the fisheries question to-day. The Senate proceeded to the consideration of the bill to place John C. Fremont on the retired list as a major general of the army. Mr. Regan and Mr. Cockrell opposed the bill. The Fitz-John Porter case was resurrected during the debate, but finally the bill was passed—29 to 21. On motion of Mr. Piumb the Senate receded from its amendment, to the postoffice 21. Of motion of Mr. Humb the senate re-ceded from its amendment to the postoffice bill, known as the subsidy amendment. The Senate then resumed consideration of the bill providing for the adjustment of accounts of laborers, workmen, and mechanics employed by the government under the eight-hour law Mr. Daws moved to amend the bill by inserts Mr. Daws moved to amend the bill by inserting the words "whether engaged at a price per day or on piece-work or task-work." Agreed to. The bill was then passed—25 to 22. The first section provides that, whoever, as a laborer, workman, or mechanic, has been employed by or on hehalf of the government of the United States since the 25th day of June. the United States since the 25th day of June, 1868 (the date of the act constituting eight hours a day's work), whether engaged at a 1868 (the date of the act constituting eight hours a day's work), whether engaged at a price per day or on piece-work or task-work, shall be paid for each eight hours he has been employed as for a full day's work, without any reduction on account of reduction of the hours of labor. The second section provides that all claims for labor so performed in excess of eight hours a day are hereby referred to the Court of Claims, to be adjudicated upon the basis that eight hours constitute a day's work, and are to be paid for at the price per day as provided for in the first section of this act, and judgment given against the United States in favor of each claimant for amount found due, to be paid as other judgments of the Court of Claims against the United States; and no statute of limitation, or payment made, or receipt given for a less sum per day than the full price of a day's work, as provided in the first section of this act, shall bar the right of recovery, provided that all suits under this act shall be commenced within two years from and after its passage; and any number of said claimants may join in the same suit; and provided further that any amount allowed under this act shall only be paid to such claimant in person or to his personal representative. The sundry civil appropriation bill reported to the Senate committee from \$25,300,000 to \$27,300,000, but is still \$6,500,000 less than the estimates. It exceeds last year's bill by nearly \$5,000,000. Jacob Daucher, arrested for the murder of

House.-The house in committe of the whole, on the 17th, resumed consideration of the Mills tariff bill. The internal-revenue feature was pending. On behalf of the ways and means committee Mr. McMillin (Tenn.) and means committee Mr. McMillin (Tenn.) offered an amendment providing that the bond required to be given by eigar manufacturers shall be given in such penal sum as th collector of internal revenue may require—eot less than \$100, with an addition of \$10 fo every person proposed to be employed by such manufacturer. Adopted. There were two pending amendments coming over from yesterday—one offered by Mr. Wise (Va.) repealing the tax on cigars, cheroots, and cigarettes, and one by Mr. Sowden (Pa.) abolishing the tax on spirits distilled from apples, peaches, and other fruits. Mr. Wise's amendment was defeated—78 to 43—and Mr. Sowden's was withdrawn. Mr. Nichols (N. C.) ment was defeated—78 to 43—and Mr. Sowden's was withdrawn. Mr. Nichols (N. C.) offered an amendment repealing all internal taxes. Rejected. Mr. Sowden offered his amendment abolishing the tax on fruit spirits. Mr. Sowden's mendment was rejected—44 to 79. Mr. Adams (III.) and Mr. Butterworth (O.) ariticity of the averies of the property of the control of the contro criticised, as opening a way for the evasion of the payment of the whisky tax, the pro-vision authorizing the secretary of the treasor the payment of the winsky tax, the provision authorizing the secretary of the treasury in his discreation to allow distilleries mashing less than twenty-five bushels of grain a day to be operated without store-keepers and gaugers. Mr. Butterworth moved to strike out the clause to which he had objected, and his motion was advocated by Mr. Bayne (Pa.) who argued that the clause meant free whisky. The motion was lost—73 to 96. Mr. Kenna (Cal.) offered an amendment providing for a drawback on grape orandy used in the tortification of sweet wines for export. Lost. Mr. Hitt (III.) offered an amendment reducing the bonded period for whisky to one year. Lost. Mr. Lawler (III.) offered an amendment to abolish the tax on oleomargarine. Rejected—3 to 101. The last section of the bill was then read, and on motion of Mr. Bynum (Ind.) the date upon which the bill shall go into effect was fixed as Oct. 1, 1888.

Senate.—Mr. Teller was not well enough

been prosecuted within the last week or two for the purpose of averting suspicion and of proving an alibi should he be suspected of the murders he had planned. The two others were drawn into his plans by Hronek's vehement and persistent talk of vengeance. Hronek said that the cause of Anarchy de-manded the lives of Judge Grinnell, who as adjourned. adjourned.

House.—The Mills tariff bill was again taken up by the house in committee of the whole. On motion of Mr. Tracy (N. Y.) primulune was stricken from the free list. The first paragraph which had been passed over informally (that placing cotton ties or hoops on the free list) was then considered. Mr. McShane (Neb.) offered an amendment placing on the free list all iron and steel hoops not thinner than No. 20 wire gauge. Agreed to—80 to 71. On motion of Mr. Mills the existing rates of duty were restored on gement and whiting and paris white. The duty on paris green was, on motion of Breek-Hronek sand that the cause of Anarchy demanded the lives of Judge Grinnell, who as prosecuting attorney convicted the eight anarchists; Judge Gary, who tried and sentenced them, and Inspector John Bonfield, who worked up the case against them. They agreed to kill these men in the order named. After deciding upon the general plan of their murderous campaign the conspirators began to arrange its details, on July 4 they visited Aldine square, the pretty park on which Mr. Grinnell's house fronts, and observed the location. They discussed the question as to whether it would be better to place a dynamite bomb under the house or to execute the deed with a revolver. Hronek carried bombs in his pockets, a 38-caliber selfacting revolver, and a poisoned dagger when on his mission of revenge.

Chebowa is a pleasant-faced man of 27 years, and his countenance indicates too much milk of human kindness in his heart for cold-blooded, treacherous murder. Until their plans had reached the fourth of July point of preparation Chebowa had been carried along by the blood-thirsty impetuousity of Hronek. Chebowa said that Hronek's plan meant murder—deliberate, dastardly assassination. He was shocked at the prospect. The conspirators had arranged to assassinate Mr. Grinnell July 14—last Saturday evening. The mode of the killing had not been decided, but either a dynamite bomb was to be thrown into his bedroom or exploded beneath his residence, or he was to be enticed to the door and shot or stabbed to death.

Mr. Chebowa, considered what to do for on cement and whiting and parts white. The duty on paris green was, on motion of Breekinridge (Ark.), fixed at 12½ per cent ad valorem. The pottery schedule, which had been passed over, was then taken up for consideration. On motion of Mr. Bynum (Ind.) sideration. On motion of Mr. Bynum (Ind.) the duty on china, porcelain, earthen, stone, or crockery ware was increased from 45 to 50 per cent ad valorem. The next paragraph called up was that relating to green and colored glass bottles. Mr. Breckinridge (Ark.) moved to make the duty 1 cent instead of % of a cent per pound. Adopted. He also offered other committee amendments striking out the flint and lime glass bottle paragraph, raising the duties on cylinder and crown He also offered other committee amendments striking out the flint and lime glass bottle paragraph. raising the duties on cylinder and crown glass, polished, not above 24 by 60 inches, from 15 to 20 cents per square foot, and above that size from 25 to 30 cents; on unpolished cylinder and uncommon window glass, not exceeding 10 by 10 inches, from 1 to 1½ cents per pound; on sizes not exceeding 16 by 24 inches, 1½ to 1½ cents; on sizes not exceeding 24 by 30 inches, from 1½ to 2 cents; sizes above that from 1¾ to 2½ cents; sizes above that from 1¾ to 2½ cents. Agreed to. The question of the duty on imported tobacco was next taken up, and Mr. Mills moved to strike out the clause fixing the rate of duty at 35 cents a pound, thus restoring the present duty. Mr. La Follette (Wis.) spoke for five minutes upon this motion and desired a further five minutes, but this Mr. Mills declined to yield, and upon his motion the committee arose. For the purpose of limiting debate Mr. Mills moved that all debate on the pending paragraph be limited to one minute, and the republicans, being again refused five minutes, declined to vote, thus leaving the house without a quorum. Mr. Mills then moved that the house take a recess until 8 o'clock, a session having been ordered for to-right for the consideration of labor residence, or he was to be enticed to the door and shot or stabbed to death.

Mr. Chebowa, considered what to do for a day or two and then made a complete confession to a prominent Bohemian, of which nationality all the conspirators were. This gentlemen, whose name Capt. Bonfield declines to divulge, is a man of high character, says the head of the detective department, and a man whose advice is frequently sought by his people. He immediately called on Mr. Bonfield and repeated Chebowa's story. The gentleman to whom Chebowa confessed took an active part in ferreting out the details of the plot. took an active part in ferreting out the details of the plot.

In Hronek's bed were found a 38-caliber revolver and a knife with a seven-inch blade which Hronek has boasted is tipped with poison. A half-dozen bombs—some loaded, others empty—were found in the room. A small portion of dynamite in the original packages, labeled "Ætna No. 2," was also found in the room.

On Chebowa's premises were found eight one-half pound packages at Ætna No. 2 until 8 o'clock, a session having been ordered for to-night for the consideration of labor bills, but as the journal showed the absence of a quorum this motion was ruled out of order. Mr. Mills moved to adjourn, and on a standing vote the motion was carried. The yeas and nays were ordered, but the ordering rote was subsequently reconsidered and by ote was subsequently reconsidered, and by irrue of the standing vote the house ad-

journed. SENATE .- At 2 o'clock on the 19th the senate went into executive session and it was thought the Fuller case would be taken up at once, but instead the senate spent three hours once, but instead the senate spent three hours considering the nomination of Samuel J. Bigelow to be district attorney of New Jersey. Senators Edmunds, Evarts, and some others opposed the confirmation vigorously, and it was rejected by a large majority. The Fuller case was not considered. Senator Blarring troduced a bill declaring that hereafter no alien shall be admitted to naturalization until after he shall have been a resident of the United States during the five years immediately preceding the application for naturalization papers, nor until he shall prove by two reputable witnesses that during these five years he has behaved as a person of good moral character, and shall also, in the presence of the judge, speak, read, and write the English language with such intelligence and facility as to prove that he has the capacity to transact ordinary business in that language, and by its use to become well in-

formed in the principles of the constitution and the duties of an American citizen. No naturalized person, the bill provides, shall exercise the right of suffrage for one year after receiving his naturalization papers. Judges are forbidden to try more than twently naturalization cases per day, and false swear ing in such cases is declared to be sufficien cause for the forfeiture of the person's right to suffrage. The following bills were taken from the calendar and passed. The senate bill amendatory of the act of June 18, 1888, as to postal crimes, declaring nonmailable all matter on any part of which, exterior or interior, indevent, lewd, defamatory, or threatening delineations, epithets, or language is written or printed. The House bill supplementary to the Pacific railroad acts, with amendments. This is the bill passed by the House on the 3d of March requiring the Pacific railroad companies to construct, maintain, and operate telegraph lines and to afford equal facilities to all connecting telegraph lines. The amendments merely strike out the word "construct," wherever it occurs. Mr. Perkins, of Kansas, moved to amend the motion so that the House should take a recess until 8 chlouse should take a recess until 8 this evening, the night session to be devoted to the consideration of general legislation on Indian depredations. At the evening session a bill was passed providing for the payment of claims arising from Indian depredations. The House at 10 o'clock adjourned

SENATE.—The conference report on the River and Harbor bill was presented and agreed to on the 23d. The Senate then prolines. The amendments merely strike out the word "construct" wherever it occurs. Mr. Chandler modified the resolution offered by him on the 12th of June directing inquiries into the election of Senator Gibson of Louisiana, and on motion of Mr. Blackburn the credentials were taken from the table and placed on file. The resolution was laid on the table. The Senate passed the House bill fixing the age of consent for females in all Territories at 16. The offense under that age is termed rape, punishable with five years in the penitentiary.

House.--The House on the 19th disposed

of a little minor business this morning and then went into Committee of the Whole on the Mills tariff bill. The pending amend-ment was that offered by Mr. Mills restoring the present rate of duty on tobacco. It was agreed to without division. On motion of Mr. Spinola (N. Y.) the present rate of duty The next paragraph taken up for consideration was that imposing a duty of 30 per cent ad valorem on bonnets, hats, and hoods composed of hair, whalebone, or any vegetable material. Mr. Lehlbach (N. J.) moved to increase the duty to 50 per cent. The motion was lost—84 to 72. Mr. Lehlbach then offered an amendment fixing the rate of duty on pearl buttons at 4 cents per line per gross, English measurement. Rejected—83 to 67. This closed the discussion and consideration of the bill in committee of the whole, and upon motion of Mr. Mills it was reported to the House with a favorable recommendation. or the bill in committee of the Whole, and upon motion of Mr. Mills it was reported to the House with a favorable recommendation. Its further consideration has been postponed until 11:30 Saturday morning. Mr. Dibble (S. C.), as a question of privilege, called up the Allentown public-building bill and the president's veto message. The report of the committee was read recommending that the bill be passed notwithstanding the veto. The House refused to pass the bill over the veto—veas, 141; nays, 84—not the necessary two-thirds vote in the affirmative. The House then took a recess until 8 o'clock, the evening session to be for the consideration of bills reported from the committee on military affairs. The only bill of public importance passed by the House evening was one providing that the army shall be paid monthly whenever the Secretary of War shall so direct. The previous question was ordered on the bills retiring Gen. William F. (Baldy) Smith with the rank of Colonel, ordered on the bills retiring Gen. William F. (Baldy) Smith with the rank of Colonel, Gen. A. B. Smith with the rank of Colonel, and Gen. W. W. Averill with the rank of Captain, and providing aid to State homes for the support of disabled soldiers and sailors, but no final action was taken. The bill appropriating \$100,000 for the erection of a monument to the memory of the victims of British prison ships at Fort Greene, Brooklyn, N. Y., was advocated by Felix Campbell and Mr. Spinola of New York and Mr. Caruth of Kentucky, who convinced all members and Mr. Spinola of New York and Mr. Caruth of Kentucky, who convinced all members present, except Mr. Kilgore of Texas, that the bill was a proper one; but Mr. Kilgore raised the point of no qurom, and a call of the House was ordered, disclosing the fact that there were, but sixty-one members present Andother called of the House was immediately ordered, but without action upon the pending bill the House at 12:50 adjourned. SENATE.—After the secret session on the

was reported and placed on the calendar for the erection of a public building at Chicago. Mr. Dolph called up the bill to prohibit the coming of Chinese laborers into the United States. Pending debate the Senate adjourned. into effect was fixed as Oct. I. 1888.

SENATE.—Mr. Teller was not well enough to speak on the fisheries treaty on the 18th, and the matter went over. The Senate then proceeded to the consideration of the Senate bill for the formation and admission into the Union of the State of Washington, to be composed of the present Territory of Washington and part of Idaho Territory. Mr. Cullom offered a substitute for the bill confining the area of the new state to that of the present Territory of Washington. Mr. Stewart supported the bill. The only controverted point on the bill, he said, was as to the inclusion within the new state a portion of Idaho—the portion known as north Idaho, or the panhandle. Mr. Vost doubted the power of Congress to refer the matter of the annexation of northern Idaho to the people thereof. If it was right that that part of Idaho Territory should be cut off and annexed to Washington state, it should be done by Congress and not subjected to all the chances of a popular admission of the new state, but opposed the annexation of a portion of Idaho. Without action on the bill the Senate proceeded to the consideration of executive business, and soon adjourned.

States. Pending debate the Senate abefore the House on the 20th was the bill coming over from the 20th was the bill coming over from the 20th was the bill coming operating \$250.000 to aid state homes for disabled volunteers. Mr. Kilgore (Tex.) moved to amend by reducing the appropriation to \$100,000. Mr. Gilgore's amendment was then rejected and the bill (which was a Senate bill) was passed. Mr. Blanchard (La.) submitted the conference report on the river and harbor bill. Agreed to. It increases the total appropriation from \$19,902,783 to \$22,277,116. The Senate receded from its amendment for the purchase of the lock and dam on the Monongaham and part it is a provided to the conference report on the river and harbor bill. Agreed to. The Senate amendment for the purchase of the Portage lake canal and the Lake Superior ship-canal railway and ir House.—The first business before the no appropriation in the bill for any canal project. The Senate receded from its amendment providing for the purchase of the Portage lake canal and the Lake Superior ship-canal railway and iron company canal The Senate amendment for a survey of a canal from Lake Michigan to the Illinois and Desplaines Rivers was agreed to. Also the Senate amendment providing for a survey and a location of a canal from the Illinois River at or near the town of Hennepin to the Mississippi River. Also the Senate amendment for a survey of a canal connecting the waters of Lake Michigan with the Calumet River. But the government is not to be deemed committed to these projects, nor, indeed, to any other project for which a survey is ordered in this bill. The present bill really carries appropriations for two years, making the amount for each year a little over \$11,000,000. After the consideration of a private bill, and without action upon it, the House took a recess until 8 o'clock evening, the session to be for the consideration of private pension bills.

SENATE.—In the Senate Mr. Sherman called with bill to receive the consideration declared to the season.

Senate.—In the Senate Mr. Sherman called up the bill to reimburse the depositors of the Freedman's Savings and Trust Company for losses incurred by the failure of that company. Mr. Vance opposed the bill, and asked for the yeas and nays upon it, but a quorum evidently not being present, the bill was passed without division. The conference report upon the river ent, the oill was passed without division. The conference report upon the river and harbor bill presented, but Mr. Edmunds asked to have it printed before it was agreed to. The Senate then went into open executive session on the fisheries treaty, and Mr. Teller took the floor. He referred to insults offered by Candian engisers to American fishing vessels. door. He referred to insults offered by Can-adian cruisers to American fishing vessels and to the hauling down of the American flag on one of them. He said that no decent apology has been made for the act, and that this fact ought to make every American ashamed. The apology was not satisfactory; but that was in keeping with the whole course of the administration in dealing with the British Government. The matter went over until Monday. The Senate proceeded to the consideration of the bills authorizing the construction of bridges and passed the folthe consideration of the bills authorizing the construction of bridges and passed the following House bills, with amendments: Across the Missouri River at Ponca, Neb.; across the Missouri River, Fort Benton, M. T.; across the Missouri River at Parkville, Mo.; across the Missouri River at Parkville, Mo.; across the Missouri River at Souix City, Iowa; across the Missouri River at Burlington, Iowa; across the Missouri River at Forrest City, Dak.; across the Tennessee River at Knoxyille, Tenn., and across the River at Knoxville, Tenn., and across the Missouri River at Plattsmouth, Neb. The Senate at 5:45 adjourned until Monday.

House.-When the applause which greet-House.—When the applause which greetted Mr. Mills' closing remarks on the 21st had died away Mr. McKinley demanded a yea and nay vote on the amendment placing cotton ties on the free list. The vote was, yes, 170, nays, 128, and the amendment stands as agreed upon in committee of the whole. The roll was about to be called on the final passage of the bill, when Mr. Sowden, of Pennsylvania, sent to the Clerk's desk and had read a communication from Mr. Randall, in which that gentleman said he wanted a pair when the vote on the tariff bill should be taken, as he would vote against the bill.

SENATE.—The conference report on the River and Harbor bill was presented and agreed to on the 23d. The Senate then proceeded to consider the fisheries treaty in open executive session, and was addressed by Mr. Dawes and Mr. Stewart in opposition to its ratification. The House bill for the relief of the Southern Itlinois Normal University was record and the Southern Itlinois Normal University was

# CHANGES IN THE TARIFF BILL

### Complete List of the Articles Trans ferred From or to the Free List During Debate.

The principal changes in the tariff bill since it was reported to the House from the Ways and Means Committee, as shown in the measure which passed the House Saturday are as follows: Articles taken from the free list: Flax, backled

Articles taken from the free list: Flax, hackled, known as dressed line; glue, gelatine and similar preparations: fish glue, or isingglass; licorice juice, bone black, ivory drop black and bone char; all preptrations known as essential oils, expressed oils, distilled oils, rendered oils; alkalies, aikaloids, and all combinations of these articles; china, clay or knolin; plams; and prunes; pulp for paper makers' use; hatters' furs not on the skin; lime; linseed flaxseed; marble of all kinds, in block, rough or squared; plaster of paris when ground or calcined; paintings, in oil or water colors, and statuary not otherwise provided for.

The following articles were added to the

Canada and Atlantic Road between Montreal and Ottawa. Eighteen miles of track have been destroyed, and many cars, houses and

# WASHINGTON NOTES.

At its evening session Friday the lower House of Congress passed twenty-four private pension bills.

At Washington, Saturday, the Senate adopted the amendments to the river and harbor bill relative to the Illinois and Michigan Canal, but eliminated that portion that pertains more particularly to the benefit of Chi-

In the Senate on Monday the conference report on the river and harbor bill was presented and agreed to.

The conference committee on the river and harbor bill reached an agreement on Friday. The item making an appropriation for the survey and location of the Hennepin Canal, connecting the Illinois River with the Mississippi near Rock Island, and also that for a survey of the projected ship canal connecting Chicago with the Illinois River, are retained

Melville W. Fuller was confirmed by the Senate on Friday to be Chief Justice of the United States Supreme Court, the vote being 41 ayes to 20 noes. At Washington Thursday O'Day, pitcher for the local base ball club, was presented

with a diamond ring. General Phil Sheridan left Washington Saturday, on board the Swartara in search of complete recovery of health

# POLITICAL POINTS.

At the meeting of the Wisconsin Republican State Central Committee, held in Milwaukee on Monday, W. A. Norvell was chosen secretary, and the convention for the nomination of State officers was called for Aug. 22 in Milwaukee. Upon advice of Bishop Galloway the Pro-

hibitionists of Mississippi, in State convention at Jackson, refrained from nominating an electoral ticket.

The Democrats and Greenbackers of Michigan held their convention Thursday, the former at Detroit and the latter at Grand Rapids. A coalition ticket was nominated the Greenbackers securing the Attorney General, the Auditor General, the Commis sioner of the State Land Office, and the electors for the Second, Eighth and Eleventh

### FULLER CONFIRMED.

The Selection of the Eminent Chicago Jurist for Chief Justice Approved by the Senate.

Ten Republicans Vote in the Affirmative Despite the Opposition of Edmunds, Evarts and

Stewart. It only required two hours' time in the Senate Friday to consider the nomination of Melville W. Fuller of Chicago to be Chief Justice of the Supreme Court of the United States and to confirm it by a vote of 41 to 20. The Republicans did all the talking. Mr. Edmunds opened the opposition by a long and severe speech, in which he recalled the record of Mr. Fuller in the Illinois Legislature just before and during the early days of the war. He charged Mr. Fuller with being a copperhead and with having voted against the resolution directing the arrest of Vallandingham. He declared that Mr. Fuller's mind was so warped then in favor of State's rights that it would be unnatural to suppose that he did not, even to this day, uphold in a large degree State's rights, and that it would be dangerous to place such a man in a position as responsible as the one for which he was nominated. He implored the Senate to run no risks, warning it that the position It only required two hours' time in the

was one for life, and that it was the highes was one for life, and that it was the highes judicial office within the gift of the government. He produced the official records of the legisture covering the period embraced in his citations, and read letters and newspaper extracts bearing on the points he brought out.

Mr. Edmunds was followed by Mr. Evarts

who touched upon many of the subject spoken of by the Vermont Senator, and then entered into an elaboration of the charge that it was extremely dangerous to place a man in the chair of the Chief Justice who entertained the State's-rights doctains.

place a man in the chair of the Chief Justice who entertained the State's-rights doctrine.

Mr. Stewart of Neyada came in for a strong attack on what he termed the "constitutional infirmities" of Mr. Fuller. He declared that the nominee, in a paper read before the Illinois Bar association, had given his interpretation of the legal value of the various forms of money authorized by the government, and that he had declared that greenbacks were a better legal tender in every avenue of trade than silver, because greenbacks would always demand of the government their redemption at their face value, and silver was subject to the constant fluctuations of the market for silver bullion. Mr. Stewart held that one who was so firmly on record in opposition to the popular standard of money value was unfit to occupy the position of Chief Justice of the United States.

Senators Cullom and Farwell alone conducted the defense of the nominee. They spoke of him as a citizen and lawyer, and

spoke of him as a citizen and lawyer, and gave him a certificate of character which would recommend him to any office in the land. Mr. Farwell said that if Mr. Fuller had ever been what his enemies had designated as a "copperhead," if he had ever opposed any of the Union measures it was during his

position under this or any previous adminis-tration.

At the conclusion of the speeches the yeas Pipes and smokers' articles, on which a duty of 25 per cent ad valorem was proposed, were stricken from the bill. The changes made in the internal revenue feature of the bill was learned that ten Republicans voted for the species the year and nays were called on the question of confirmation. Although the proceedings were held under a double injunction of secrecy, it was learned that ten Republicans voted for the species the year and nays were called on the question of confirmation. Although the proceedings were held under a double injunction of secrecy, it was learned that ten Republicans voted for the species the year and nays were called on the question of confirmation.

Cullom and Farwell of Illinois, Cameron and Quay of Pennsylvania, Hale and Frye of Maine, Davis of Minnesota, Jones of Nevada, Mitchell, Oregon, and Riddleberger, of Vir-

All of the Democrats present voted for con-Fire at Kentland, Ind., destroyed two elevators and the depot and eighteen cars belonging to the Panhandle Railroad. The loss is \$25,000.

Julius Bauer's piano warerooms in Chicago were destroyed by fire Wednesday, with a loss of over \$200,000.

Forest fires are raging along the line of the Canada and Atlantic Road between Montreal

and Wilson of Maryland—31.

The twenty Republicans voting against confirmation were:

Blair, Bowen, Chandler, Dawes, Dolph, Edmunds, Evarts, Hawley, Hoar, Ingalls, Manderson, Palmer, Platt, Sabin, Sawyer, Sherman, Stewart, Stockbridge, Teller, and Wilson of Iowa.

The total number of votes cast for and against confirmation was 61, leaving fifteen Senators paired or absent. The Democrats absent or paired were Messrs, Call, Colquitt, Kenna, Eustis, Harris, and Saulsbury—six. The Republicans who did not vote on account of absence or pairs numbered nine, and were Messrs. Aldrich, Allison, Chace, Hiscock, Morrill, Paddock, Spooner, Stanford, and Plumb. This accounts for the entire membership of the Senate—seventy-six.

There was some surprises expressed on the part of the Republicans at the vote. They did not expect that over five or six of their number would vote for confirmation, and those who voted against confirmation on the Republican side were extremely energetic in their efforts to enjoin secrecy on the proceedings and keep from the public record. The

their efforts to enjoin secrecy on the proceedings and keep from the public record. The commission of Chief Justice Fuller is expected to issue next week, and he will have an opportunity to take the oath of office immediately after the commission is delivered

immediately after the commission is delivered to him.

Melville Weston Fuller was born in Augusta, Me., on the 11th of February, 1833. His father was Frederick A. Fuller, and his mother a daughter of Chief Justice Nathan Weston. The son prepared for college in the city of his birth, and subsequently/graduated from Bowdoin at the age of 20. He immediately began the study of law at Bangor and attended lectures at Harvard. At the age of 23 he began the practice of law at Augusta, at the same time editing a newspaper called the Age. Like many other young men he felt the opportunities of the east too narnow for him to rise in the practice of his profession. He came west to Chicago, where he soon won distinction at the bar. He served in the constitutional convention of 1861 and in the constitutional convention of 1861 and was a member of the legislature of 1862, in both instances representing a Republican district. He was a delegate to the national conventions of his party in 1864, 1872, 1876, and

In his law practice Mr. Fuller has frequently encountered the most highly esteemed members of the eastern bar, and he has not failed to command their respect or to secure their friendship. As a lawyer he has been singurarly, industrious, and punctilious in his attention to duty. His clients have never suffered from carelessnsss on his part. He is refined and scholarly in his tastes, and his critical knowledge of literature is remarkable. In society he has always been noted for the modesty and agreeableness of his manners and his winning conversation.

In 1858 Mr. Fuller was married to Calista O. Reynolds, and after her death to Mary Ellen, daughter of the banker, William F. Coolbaugh. In his law practice Mr. Fuller has fre-

# ANARCHISTS AT BOSTON.

### An Attempt Made to Blow Up the Rialto Building. A daring attempt was made Friday morn-

ing to blow up the big Rialto Building, that stands on the corner of Milk and Devonshire stands on the corner of Milk and Devonshire streets. The engineer, George Mason, sleeps in the building, through a distance from the engine-room. At 5 o'clock Friday morning, when he went down to the boiler room, he found that the water in No. 2 had been exhausuted, the furnice was red hot and there was an unmistakable odor of kerosene in the air, with traces of the cotton waste in the furnace. The conditions were all right for an explosion, lacking only to have water turned into the red-hot boilers. The boiler was ruined. There have been on two recent occasions, mysterious fires in the Rialto.

At some places it is impossible to discern where the road-bed has been, while, with the exception of only an occasional gap on high and solid ground, the entire bed is badly washed.

Interest enters in the destruction of the Baltimore & Ohio bridge over Wheeling the city will be in darkness for some time. The company also supplies the electric street The company also supplies the electric street railway with power, and the cars will be stopped temporarily. The loss is estimated at \$15,000; insured. The building will be rebuilt at once.

water began to rise slowly.

—A fatal shooting affray occurred at Seney by which George Everett received three bullets in the breast, and will die, while one McCleary was shot through the shoulder. The shooter was Thomas Hayes, one of the proprietors of a hotel there and a popular and well-to-do business man. Hayes got into a row with McCleary and another man and was getting badly punished, when Everett sprang in to aid McCleary. Then Hayes pulled a revolver and shot Everett and McCleary. McCleary is dangerously hurt. Hayes has not been arrested. He claims self-defense.

—Several lady passengers from the steamer are found. Mr. Wingard, the father of the two girls, arrived in the city Friday eventures are found. Mr. Wingard, the father of the two girls, arrived in the city Friday eventures are found.

defense.
—Several lady passengers from the steamer Nyack, anchored at Marquette, miracuously escaped a terrible death while waiting for the yessel to clear. They walked over to the Burtis saw mill and for nearly an hour sat near the engine-room watching the men. As they arose to walk away and before they had scarcely got out of range a terrific explosion took place, which tore out part of the mill, completely wrecking the place they had just left and hurling part of the cylinder and the piston rod far, out into the lake. Had it occurred a moment sooner not one could have curred a moment sooner not one could have escaped. The mill was badly damaged but no one was hurt.

—George W. Ferrard, a farmer residing eight miles south of Indianapolis, shot and killed William Maples, also a farmer.

—A Fort Waye horse bit an electric light wire in two while the current was on. The nimal was knocked over, but soon recov-

—Arthur Chambers, recently from Jefferson Barracks, St. Louis, committed suicide at Ligonier, by taking morphine. He was an Englishman; about thirty years old.

—James M. Crow, a merchant in Boonville, after suffering for five years from stomach troubles of an unknown character, vomited a strange and peculiar animal six inches long. Frank Hays, of Logansport, was sen-enced to two years in the penitentiary for arceny. On Decoration Day he picked the backets of passengers on the Wabash

way), aged seventy-two, got off a train at Longwood, near Connersville, to visit friends and fell dead in the road. She has been mar-

—Mrs. Tibballs, of Delaware, mother of F. D. Tibballs, of Millersburg, fell down-stairs at the latter place with a child in her arms, breaking her shoulder, though the child

marked "carbolic acid." Miss Peck may not recover.

—Two grown daughters of Jacob Nye, a well-to-do farmer living eight miles south of Princeton, were adjudged insane and will be sent to Jacksonville for treatment. The father and mathematical marked "carbolic acid." Miss Peck may not seem of incendiary origin.

—At Seymour John Presley, aged four-teen, walked out of a second-story window in his sleep, fracturing his knee-cap and receiving internal injuries. He may survive, but if he does will be crippled for life.

—The sixteen recover.

Princeton, were adjudged insane and will be sent to Jacksonville for treatment. The father and mother and another daughter are also insane. The family of tive were all stricken with this strange malady the same day, and physicians are unable to account for the cause, as all were well as usual a few days ago and there had been no unusual excitement in the neighborhood. They spend their time in singing and praying and seem to fear being poisoned.

but if he does will be crippled for life.

—The sixteen-year-old son of Mrs. Junkins, of Terre Haute, who killed her young niece, was arrested, charged with complicity in the erime, the boy having given his mother the gun with which the murder was committed.

—William Meyes, residing near Osgood, found a man dead in his barn, and the Coroner decided that heat and cholera morbus were the causes of death. He is supposed to have been David Knapp, formerly of Pennsylvania.

-A little daughter of Joseph Brower of —A fittle daughter of Joseph Brower of Roann, fell under the wheels of the caboose attached to a Wabash Western train and sev-eral cars backed over her body. By laying flat on the ties between the rails the little one escaped unhurt.

—Near Waynetown Henry Clayton and George Leikric were crossing a bridge with a team when it gave way, fatally injuring one horse and wrecking the buggy. The men saved themselves by jumping as the buggy went into the ravine.

-An attempt was made at Jefferson to shoot Herman Rave, a newspaper man, through a window near which he was sitting. The bullet failed in its mission and the would-be

-C. Pickett, of Nokolio, who has been outrial during the last two weeks for starting a \$100,000 fire there about a year ago, was acquitted of the charge. The case has attracted widespread attention, every lawyer in the district programmed an one side or the ounty being engaged on one side or the

—A week ago Bernard Volters, a prominent citizen of Ferdinand, mysteriously disappeared, and his whereabouts have been shrouded in mystery until recently, when his body was found in the school-house cistern. He evidently committed suicide, although there is no known casts why he should have

# FURY OF THE STORM.

More than Twenty Persons Lost Their Lives by the Cloud-Burst Near Wheeling.

Fifteen Miles of One Railway Wash. ed Away so That Its Course Is

Hardly Distinguishable. A telegram from Wheeling, W. Va., says: The damage caused by Friday night's storm can hardly be imagined from the meager ac-counts already sent out. Investigation shows a wide area of desolation, in which the loss of

ife and destruction of property is great.

The line of the Pittsburg division of the Baltimore & Ohio railroad will have to be practically rebuilt from Elm Grove to the Pennsylvania state line. Six large and costly bridges were washed away, and the track was lifted from the road-bed and twisted into all consequently able shows for while at a strately all conceivable shapes for miles at a stretch.

At some places it is impossible to discern where the road-bed has been, while, with the

ttended this disaster. Several of those on the bridge wore doubtless strangers in the city, and their absence is not noticed. So far as can be definitely known there were four men and three boys not since heard from on the bridge when it went down.

It is thought now that twenty-three persons heave here drawned at various places.

rebuilt at once.

—A strange phenomenon occurred at Marquette. Those on board the vessels at anchor in the narbor felt their boats sinking under them, but in five minutes the water in the bay fell twenty-six inches. The only solution to the mystery is that a dense black cloud which passed rapidly out over the lake a short time before must have been an immense waterspout or cyclone, which swept the water before it. The wind was off shore and light at the time. Half an hour later the water began to rise slowly.

—A fatal shooting affray occurred at Seney by which George Everett received three bullets in the breast, and will die, while one

are found. Mr. Wingard, the father of the two girls, arrived in the city Friday evening. He had no knowledge of the drowning of his two daughters until after his arrival. It is impossible to reach the worst localities. The creek is still dangerously swollen and the roads washed, bridges caved in, and telephone and telegraph lines down.

Is is impossible to give any details of losses for the reason that those who suffered cannot estimate their own loss as yet, and every resident of low grounds in the entire valley suffered damage ranging from \$100 to \$10,000, while even those on the hills lost valuable crops, fences, etc. The Baltimore

presents a scene of devastation and destruc-tion. Trees lie across the track, where they were blown. Wires are down and frequept landslides impede the workmen who are try-ing to clear the tracks. In this stretch of territory which suffered the greatest damage there are five short bridges crossing creeks to be prepared, and the office in this city esti-mates the number of landslides to be cleared at twenty.

# RIVER MEN BOILED ALIVE.

Seven Men Killed by the Explosion of a Steam-Pipe.

Westport, Ind., at 1:40 a.m., Friday, on the tug boat Convoy by the explosion of the steam pipe which supplied the engine from the boilers.

A dispacent from Louisvine, Ky., Saturday around like a teet tug around like a round like a treet with the street corners.—Detroit Free Press.

Sadly Disappointed.

est of the crew were asleep at the time Most of the crew were asieep at the time of the explosion. The captain was awakened from his sleep by the explosion and at once had a yawl lowered and the boat secured to the bank. Upon investigation Page was found dead and horribly scalded near the after-cabin door. Corrigan was found in his boath. His death was instantaneous. Robert Jones was found alive. He died with wife's name on his lips. William Bigley still alive when found, but died in ten utes. Charles Luster was found outside the cabin, lying on his face. He was not de and told them that he had run out there sat to the me that he had there as soon as he could recover from the shock of the explosion. He was almost baked, his skin was parched, and little jets of blood stood out from the pores of his body. In two hours he was dead. George McCann lay dead in exactly the same position he was in when the first mate left him but half an hour before.

William Kelly was pulled out from under william Kelly was pulled out from under the mean than the dath of the cause of his apparent trouble. "Why, mamma, he isn't sitting on a throne, and he has no crown on his head. He is only a man."—Washing-ton Capital.

The Products of Georgia. William Kelly was pulled out from under his bunk and was alive, but he was also terribly burned. Charles Chambers, the other man who slept in the cabin, was blown out of the door and had a miraculous escape.

Just before the explosion the mate had been talking with McCann, who half arose in bis bed and skilled preceptor, too, recenly had occasion to submit his clearly side. Will some heart has write.

The boat was on its return to Pittsburg, having left there last night with six empties.

An inquest was held Friday afternoon and a verdiet was found that the accident was unaccident was unaccident. The bodies of the men were ship ped to Pittsburg.

# GLITTERING GOLD.

Astonishing Result of a Blast in the Lake Superior Company's Mine, Near Ishpeming.

The richest lot of gold rock ever taken from a mine east of the Rocky mountains was brought into Ismpeming Friday morning from the Lake Superior Iron Company's gold shaft, seven miles northeast of there. Over 300 pounds of the rock was disloged by a single blast. The gold is so abundant that it sticks out of the rock, and the best chemists place the value of the 300 pounds of rock at \$10,000. It is believed that the rock will "pan out" \$60,000 a ton.

application of cold water will check any further flow, but this should be quickly followed by the application of hot water to cause absorbtion—American Analyst.

Boycotting a Ship.

The frequenters of the water front and lower portion of the city cannot fail to have noticed the property of the state of the same of th

\$10,000. It is believed that the rock will "pan out" \$60,000 a ton.

This is the fifth rich discovery in the shaft, and many minor discoveries have not been made public. The quartz vein on which the shaft was sunk was discovered three years ago by Ishpeming men, but with exception of exploding one charge of dynamite, which exposed a rich pocket of goldbearing quartz, nothing was done because the property was owned by the Lake Superior Iron Company, which would not sell the property. Last summer the company put a few miners at work on the property and a test shaft was sunk about eighteen feet, at does so.

In Orange County, twenty-five miles from New Albany, the "White Caps" gave Jonathan Cook a brutal whipping for the alleged reason that he slandered his dead wife. He was employed by Elisha Glennin, who racified to give Cook no more work, but instead of complying he fired several shots into the crowd, but with what effect is not known.

In For several months the vicinity of the crowd, but with what effect is not known.

We understand Dr. Jenks has at last found a customer for his house and lot and if he makes a sale, will remove to Ypsilanti. Your city needs a few more physicians, and Dr. Jenks would make a fine acquisition to the fraternity there. We trust he will not be disappointed in not making a sale of his property here.

Mrs. E. Hodey has been in constant attendance at her mother's bedside, Mrs.

Geo. Gould, at the McRoberts House in your city. Mrs. Gould is very ill. She was brought home upon a bed from her sister's near Grand Rapids recently, and has been in a precarious condition ever since. Dr. Jenks is treating her at pres-

The annual meeting of the Detroit District Camp Meeting at Belleville will cammence Tuesday, August 7, at 3 p. m. We notice in the circulars distributed, a new departure announced therein: No tickets will be sold this year on the Sabbath day and only those who secure tickets during the week will be permitted to pass the out side gate at the public highway on Sunday. Admission ten cents. Mr. L. Barlow has charge of the sale of tickets at this place. I trust everybody will remember this new rule. Secure your tickets and avoid trouble. No open gates only for those who have tickets.

LODI. Miss Mary Wood and niece, Miss Aura Miller, and Mrs. Rogers, all of Ann Arbor, were the guests of Mrs. A. A. Wood last

Mr. J. Evart Smith of Ypsilanti called on some of his friends in town Saturday. The farmers have taken advantage of the dry weather to secure their wheat and barley in good shape, and, as they are now about through with their harvest, they are

looking anxiously for the much needed rain to save the corn and potatoes, but the showers seem to pass around us.

Mr. Henry Burns of San Antonio, Tevas, spent last week with A. A. Wood. He is here looking up rams for the Texas trade an i, in company with Mr. Wood visited many of the flocks of this and adjoining counties. He bought quite a number of sheep while here, and leaving Mr. Wood

to complete his purchases here, left on Saturday for Vermont, where he expects to buy more. Mr. Burns reports things in general quite flourishing in Texas, as they have had fine rains this summer, but the sheep trade, although not entirely lead, is badly wounded by free trade agi-

THE LADS AND THE LAND FAR AWA When I think on the lads an' the land I ha'e left,

reft; How the hinnie o' hope has been jumbled with ga', Then I sigh for the lads an' the land far awa'. When I think on the days o' delight we ha'e seen, When the flame o' the spirit would spark in the

een; Then I say, as in sorrow I think on ye a', Where will find hearts like the hearts far awa'? When I think on the nights we have spent hand in

hand, Wi' mirth for our sowther, and friendship our band, This world gets dark; but ilk night has a daw', And I yet may rejoice in the land far awa'! —Hew Ainslie.

THE PHILOSOPHY OF BEDSTEADS.

Experiments Made by a Scientist-The Atmosphere of the Bedroom.

Primitive and Oriental people lie on the ground or on a carpet, bed, or mattress which is laid on the ground. Modern western civilization is not satisfied with this; it demands bedsteads, with legs that shall raise the sleeper well above the floor level. Is any sound scientific justification of this latter practice discoverable? I think there is, and that my explanation will prove that the question is not so frivolous as it may at first sight

A very interesting paper was read before the Society of Arts on March 23 by Dr. Percy F. Frankland, in which, among other matters, he described experiments nade by himself and others, proving that nicrobia, pathogenic and otherwise, do not remain suspended in still air; they fall much more freely than might be supposed from what is known concerning infection by poison germs floating in the air. Hesse's experiments show this clearly. Koch's method of testing for the existence of microbia in the air was to expose dishes or strips of glass containing gelatinous solid films. On these the microbia fall and find abundant nutriment, and multiply accordingly, forming colonies that may be counted, and may be examined with the microscope.

But this only indicates the numbers falling on a given area, not the numbers contained in a given measure of air. To letermine these, Hesse used tubes about three feet long and one and one-half inches diameter, internally coated with the sterile nutritious gelatine peptone. A neasured quantity of air was drawn slowly through the tubes, when it was discovered that the colonies were all at the bottom of the tube, and not evenly listributed even over the bottom, but were more or less crowded together at the end where the air entered, and more and more sparsely distributed further in ward until the latter half of the tube was almost entirely free. The microbia had all fallen down in the course of the short ourney of the air. The mold colonies pread all along the tube, showing that fungus germs float in the air, while bac-

Other experiments show that in an ordinary apartment the questionable organisms are more and more abundant, descending from ceiling to floor. Therefore the raising of our beds well above the level of the floor places us in a better atmosphere, so far as these microbia are concerned, than if we slept as in the east. This is especially the case if the air of the room is still, as is usually the case in the bedrooms of these latitudes. In rooms of the old oriental pattern, without window glass, the case is somewhat different. It may be supposed that, carbonic acid being heavier than air, there is much more near the floor than a little higher. Owing to the diffusibility of the gas this, however, is not the case in any measurable degree. The carbonic acid we expire gets an upward start on leaving our lungs; the mixture expired is, except in hot weather, specifically lighter than that which we inspire on account of its higher temperature.—Mattieu Williams in The Gentleman's Magazine.

How Cleopatra Killed Herself.

Dr. Viaud Grand Marias, in a curious pamphlet on the Egyptian queen, disusses at some length her experiments on slaves, prisoners, and persons condemned to death. Quoting from Plutarch, he shows how she acquired the certitude that the bite of the asp effected a calm and painless death. But here the worthy doctor's reasoning begins. How, he asks, did the asp escape, and how did the two attendants of the queen die? Nobody saw the serpent afterward, and we have the spectacle of a closed room, of two women inanimate, and of one anguidly raising her head to answer with dying feebleness the messengers of Cæsar. All this, according to the docfor, shows that charcoal poisoning had been resorted to; for Cleopatra, who was a clever woman, had studied every possible means of bringing about death. M. Maspero, the well known Egyptologist, to whom the recent researches of which Baron Larrey made fun have been communicated, doubts the existence of the great Nile queen, as there are no monuments or hieroglyphs relating to her.—London Telegraph.

Patrons of a Public Library.

The vast number of readers never come to the library with the idea of getting any but one book. If that is not 'in," they are in a quandary, and they always appeal to one of the librarians to "get me something good." Any one who knows the different tastes in books can imagine what a task this is, for there isn't any possible way of telling by a visitor's physiognomy what his particular taste in literature may be. It would ap-pear that most people have no settled plan of reading. They take up whatever book happens to fall in their way, and read it. It doesn't matter what it is. The more intelligent patrons keep the call slips, and have always a special list of books, which they hand to the librarian, and he can go through it quietly and determine which are on hand. A position behind the desk at the library is one in which there are splendid opportunities for the study of human nature.—Library Attendant in Globe-Democrat.

Affected by the Association.

Each person is in his own company so much of the time that he is liable to be deeply affected by the association. As the French monarch said at last: "I am the state;" so each person in a life the most private becomes by degrees an owner of the world and assumes that the world is I: "I am the summing up of things."—David Swing.

Children Cry for Pitcher's Castoria.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria, When she had Children, she gave them Castoria

W. D. Sult, Druggist, Bippus, Ind., testides, "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles and was cured of Rheumatism of 10 years' standing." Abraham Hare, druggist, Belleville, O., affirms, "The best selling medicine I have ever handled in my 20 years' experience is Electric Bit-Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only 50c a bottle at Frank Smith's.

An onion weighing seventeen pounds has been raised in Phœnix, Ariz. When the rival towns think of it, they shed tears

"Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and or seven years she withstood its severes tests, but her vital organs were undermined and death seemed imminent. For three not sleep. She bought of us a bottle of Dr. Kings New Discovery for consumption nd was so much relieved on taking one dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus write W. C. Hamrick & Co., of Shelby, N. C.—a free trial bottle at F. Smith's drug store.

A Miss Leg, of Montana, has just married a man named Hand. She prefers to be a right Hand rather than a left Leg.

A Justice of the Peace Says.

Hon. John Nealy, justice of the peace and ex-member of the House of Representatves from Merdeith, N. H., was for twelve years a terrible sufferer with rheumatism. He says: I cannot obtain any medicine which does me so much good as your Sulphur Bitters, and I think it is the best medicine made.

Mme. Diss DeBar does not find her present quarters as pleasant as Mr. Marsh's

Paste diamonds are so called because people get stuck on them so often.

# DYSPEPSIA

Up to a few weeks ago I considered myself the champion Dyspeptic of America. During the years that I have been afflicted I have tried almost everything claimed to be a specific for Dyspepsia in the hope of finding something that would afford permanent relief. I had about made up my mind to abandon all medicines when I noticed an endorsement es when I noticed an endorsement of Simmons Liver Regulator by a of Simmons Liver Regulator by a prominent Georgian, a jurist whom I knew, and concluded to try its effects in my case. I have used but two bottles, and am satisfied that I have struck the right thing at last. I felt its beneficial effects almost immediately. Unlike all other preparations of a similar kind, no special instructions are required as to what one shall or shall not eat. This fact alone ought to commend it to all alone ought to commend it to all troubled with Dyspepsia.

J. N. HOLMES, Vineland, N. J.

# CONSTIPATION

To Secure a Regular Habit of Body without changing the Diet or Disorganizing the System, take

SIMMONS LIVER REGULATOR

ONLY GENUINE MANUFACTURED BY J. H. ZEILIN & CO., Philadelphia. A Factory of "Condensed Milk."

We first went to the receiving room, where the fresh milk is delivered by the farmer and is at once poured through a fine strainer into large copper vats; is carried thence by means of pipes into large copper wells, situated in one of the lower rooms; here it is boiled, and from thence to a small copper well where the finest grades of refined sugar are added, and then strained into another well, from which it is taken to the vacuum or condensing room above. The milk is here condensed by a very low temperature in these pans; at times made to boil at a temperature as low as 120 degs. The milk in its condensed form is carried to a lower apartment again, where it is put into larger vats in cans of ten gallons each, and with apparatus kept in a re volving motion, the milk is cooled to a temperature of about 70 degs. From this room the milk is transported on a car to the canning room; here it is poured into the filling machine, which sends the milk into the cans ready for sealing. The cans weigh one pound each and retail at from fifteen to eighteen cents. The cans are sent to the shipping room, where they are carefully packed in boxes holding four dozen each. The milk is used for all the ordinary purposes that pure sweet milk is used; for table use; for the traveler on sea as well as land, and is prescribed by physicians as a nice and delicate food for infants. I need only say the company makes its own cans and boxes.

The factory gives employment to 135 persons, over half of whom are attractive, white aproned girls; it buys from 184 farmers a daily average of 35,000 quarts of milk—the milk being produced by 3,500 cows, feeding on about 35,000 acres of land. The sugar used is about thirty-five barrels per day, or one barrel to every 1,000 gallons of milk. Cleanliness is strictly observed in the factory, and nothing of acid or solid nature is used in the process of condensing the milk that will not admit of a close and rigid medical test.—Cor. Hartford Times.

Introducing the Edible Snail. I have lately made a number of efforts to introduce to St. Louis epicures the edible snail of France and Germany, and have been uniformly unsuccessful, not because of the failure of the epicures to appreciate the delicacies, but because of the difficulty I found in getting the snails from Europe here. I have so far obtained, after several months' message sending by friends visiting the continent, only two snails. With these I would have started a snail farm, but they died through my neglect. If the dish were once brought to the notice of the palates of the local gourmands their importation here would soon become a great business and the snail would soon rival the soft

crab and oyster as a luxury. New Orleans is the largest consumer of snails in this country, and they cook them there deliciously. The snails are first thrown into hot water and killed. Then they are washed in a weak solution of lye, which removes the slime, and the shells are cleaned with stronger lye. Then the meats are boiled and replaced in the shells, with a dressing of bread and parsley, and thus prepared the snails are roasted. When the covers are removed from the dish, one must eat the snails, whether one likes them or not, the flavor is so enchanting. They can be eaten in two ways: The meat can be picked out with a fork, or the shell may be put to the mouth and the snail sucked out bodily.—Globe-Democrat Interview.

The Maiden Assurance Company. In Denmark there is a society known as the Maiden Assurance company; its aim is to provide for ladies of well to do families. It shelters and cares for them, and furnishes them with "pin money Its methods are thus described: The nobleman—for the association is peculiarly for this class—as soon as a female child is born, enrolls her fame in a certain association of noble families and pays a certain sum, and thereafter a fixed annual amount to the society When she has reached the age of, we believe, 21 she becomes entitled to a fixed income, and to a suite of apartments in a large building of the association, with gardens and park about it, inhabited by other young or older noble ladies who have in like manner, become members. If her father should die in her youth, and she should desire it, she has shelter in this building and, at a time fixed, her income. When she dies or marries all this right to income lapses, and the money paid in swells the endowment of the association. Her father may pay for twenty years and then her marriage cuts off all advantage of the insurance. But this very chance must enable the company to charge lower annual premiums and make the burden less on the father insuring. He has, at any rate, the pleasant feeling that his small annual payments are insuring his daughter's future and giving her a comfortable home and income after he is gone. It is obvious that the chances for marriage among a given number of women can be calculated as closely as those of death. The plan has worked well for generations in Copenhagen.-Home Jorunal.

It is estimated that half the male population throughout Christendom use

YPSHANTI, . MICH. THURSDAY, JULY 26, 1888

The Bishop of London has risen to be a wit. As he was taking leave of a parishioner with a very large family, the lady said: "But you haven't seen my last baby." "No," he quickly replied, "and I never expect to!"

Small amounts of the old postal currency still continue to be offered for redemption at the New York Sub-Treasury. The amount still unredeemed is \$15,000,000, but most of it is doubtless worn out or destroyed.

There was exhibited in the window of a store in Charleston, N. C., the other day the skull of a noted Seminole Indian chief of the early days. A collector for the firm had become possessed of it while traveling in Florida.

Realism attains its climax in Mr. Henry Irving's performance of Robert Macaire. Real water is now an old night.

The oldest house in Indiana, the old Moore mansion, situated on the Utica pike, near Four Mile Springs, has recently been torn down. It was built in 1800, of stone and brick, and for many years past has had the reputation of being haunted.

In a recent French murder trial the bones of the murdered man were brought into court and placed before the accused. The man turned pale, but over the ghastly relics reiterated his protestations of innocence, nevertheless he was convicted.

A Biddleford, Me., man while washing the outside of his own windows with the hose thought he would do a neighborly kindness for the lady who lived in the tenement overhead. meant well, but as the deceptive scenic screens failed to show him that the windows were wide open, the effect was not just what he expected.

Ethel Jones, of China, Me., had just been set out doors by her mother when she was heard to scream. Running quickly, her mother saw a large rooster pecking at her head, and the blood running down over her face. found three large holes dented into her head, made by his spurs, and thinks he would have killed the child if she had not rescued her.

Captain Parr, of Oconee, Ga., tells us of a case of petrification to be found near the bridge at the Appalachee River. He says it is the most perfect specimen he ever saw, being very hard and of a granite form. The substance petrified was the body of a tree. He says the ringlets of the tree can be clearly discerned, also the heart and sap of the tree. Mr. Parr speaks of sending it the National Museum.

Poison for some animals is food for others. Hogs can eat henbane or hyocyamus, which is fatal to dogs and most other animals. Dogs and horses are not easily poisoned with arsenic. Goats eat water hemlock with impunity; pheasants, stramonium; rabbits, belladonna; and morphia is said to be innocuous to pigeons. There is some truth in the old saying that "What is one man's meat is another man's poison." This is due to habits and idiosyn-

If the alligator hunters keep up the vigorous warfare they have lately in-augurated in the vicinity of Panasoff-kee, Fla., against the reptiles the streams thereabouts will be bereft of them. When the business first commenced some time ago, they were only two or three at it, but now their name is legion, and they find it no longer profitable to hunt on the lake and outlet and are gradually going farther down the river. The business is paying, as two men get on an average to 20 'gaters a night, and the hides bring from 50 cents to \$1.25 each, according to length.

At Canton, China, some 250,000 people live continually upon boats and many never step foot on shore from one year's end to another. The young children have a habit of continually falling overboard and thus cause a great deal of trouble in effecting a rescue, while in many instances this is impossible and a child is drowned. China is an over-populated country and the Chinese have profited by this drowning proclivity in reducing the surplus population. They attach floats to the male children so that they can be fished out when they tumble into the river. The females are withou such protection and are usually left to

"Bellite," the new explosive which has been invented by M. Lamm, of Stockholm, seems destined to knock dynamite and perhaps melinite out of The stuff resembles sulphur and smells like pitch, and is made up in capsules which look like thick wax candles and are covered with glazed paper. It is composed of about four parts of nitrate of ammonium and one part of a mixture of binitro and trinitropenzine with saltpetre. A shell filled with "bellite" blew a wooden-raftered hut to pieces, and is evidently efficient for blasting purposes. The inventor hopes to be able to demonstrate that it is capable of being used in military operations.

A Bangor young woman one Saturday evening went into a bookstore and asked the clerk, whom she knew well, to pick her out a good novel to read next day. The novel was selected, and the clerk deftly substituted for it a New Testament, made a neat package, and thought that he had played a good joke on the girl. On Monday morning he heard from the joke. The young woman entered the store very white in the face and banged the Testament down on the counter. "I'd have thrown into Wall street, for they had on their looks the happiest people passing. I judged from their looks the happiest people were not those who went down into Wall street, for they had on their looks are time very best thing for us. If we had an appreciation of that truth, then we should know why it was that John Noyra, the martyr, in the very midst of the flame reached down and picked up one of the fagots that in the fire," she said, "if there had been any way in which I could have made you pay for it. I'll never buy a came out of Wall street, for they had made you pay for it. I'll never buy a came out of Wall street, for they had officers and men of my regiments, with them in our rapid return to this came. That was consuming him, and kissed it, and said: "Blessed be God for the time when I was born to this preferment."

We will burdened with them in our rapid return to this came. I have the honor to report that the officers and men of my regiments with the min our rapid return to this came. The came out of Wall street, for they had officers and men of my regiments with them in our rapid return to this came. The came out of Wall street, for they had officers and men of my regiments with the min our rapid return to this came. The came out of Wall street, for they had officers and men of my regiments with the min our rapid return to this came. The came out of Wall street, for they had officers and men of my regiments with the min our rapid return to this came. The came out of Wall street, for they had officers and men of my regiments with them in our rapid return to this came. The came out of Wall street, for they had officers and men of my regiments with the min our rapid return to this came. The came out of Wall street, for they had officers and men of my regiments with the min our rapid return to the came of my regiments. The came out of Wall street, for they had officers and men of my regiments with the min our rapid return to the came of my regiments. cent's worth of you again so there. Give me the book I bought on Saturday," and then she flounced out of the

The new catalogue of the Dresden gallery issued by the director, Dr. Woermann, declares that a careful examination of the pictures recently purchased at comparatively high prices, shows that they are not the genuine work of the artists to whom they have been attributed. Some are only copies; some, the works of other less distinguished artists; some, forgeries. In 1874 and 1875 eighteen pictures, said to be by old masters, were purchased out of the money paid to Saxony as her share of the French war indemnity. Two of them are impostures, three only copies, two not by the painter to whom they are assigned, but by some of his pupils, one is a hastily painted and unfinished work of the artist, one is doubtful, and three by different artists than those named as their painters.

TALMAGE'S SERMON.

"In Good Humor with Our Circumstances"-Health the Grandest Luxury Given to Man.

Happiness Not Dependent on Outward Circumstances-"Godliness with Contentment Is Great Gain."

The Rev. T. DeWitt Talmage, D. D. preached at the Brooklyn Tabernacle Sunday. He took for his subject, "In Good Humor with Our Circumstances." His text was Hebrews xiii, 5: "Be content with such things as ye have." The great preacher's discourse was as follows:

preacher's discourse was as follows:

If I should ask some one, "Where is Brooklyn to-day?" he would say, "At Brighton Beach, or East Hampton, or Shelter Island. "Where is New York to-day?" At Long Branch." "Where Philadelphia?" "Cape May." "Where is Boston?" "At Martha's Vinevard." "Where is Virginia?" "At the Sulphur Springs." "Where the great multitude from all parts of the land?" "At Saratoga," the modern Bethesda, where the angel of health is ever stirring the wafeature, but Irving jumps through a window of real glass. The fifty or sixty small panes have to be reset every titude are at home, detained by business or circumstances. Among them all newspaper men, the hardest worked and the least compensated; city railroad employes, and ferry masters, and the police and the tens of thousands of clerks and merchants waiting for their turn of absence, and households with an invalid who cannot be moved, and others hindered by stringent circumstances, and the great multitude of well-to-do people who stay at home because they like home better than any other place, refus-ing to go away simply because it is the fashion to go. When the express wagon, with its mountain of trunks directed to the Catskills or Niagara, goes through the streets, we stand at our window envious and impatient, and wonder why we cannot go as well as others. Fools that we are, as though one could not be happy at home as anywhere else. Our grandmothers and grandfathers had as first spring was bored at Saratoga or the first deer shot in the Adirondacks. They walk on the Battery.

> the passion is so great that there are Christian people with their families detained in the city, who come not to the Of how much worth now is the crown house of God, trying to give people the idea that they are out of town; leaving the doorplate unscoured for the same council or the laws of Lycurgus? Who reason, and for two months keeping the front shutters closed while they sit in the back part of the house, the thermometer at ninety! My friend, if it is best for us to go, let us go and be happy. If it is best for us to stay at happy happy. If it is best for us to stay at happy happy. If it is best for us to stay at happy happy. It it is dest for us to stay at happy. Antony? Who croudes before Ferdinand, or Boniface, or Alarie? Can nand, or Boniface, or Alarie? Can Cromwell dissolve the English parliament now? Is William, prince of Orange, king of the Netherlands? No, no! However much Elizabeth may happy. The country with our circumstances, not it to English parliament now? Is William, prince of Orange, king of the Netherlands? No, no! However much Elizabeth may love the Russian crown, she must pass it to be the Russian crown, she must pass it to picking a quarrel with our obscurity, or our poverty, or our social position. Catherine to Paul, and Paul to Alexan-There are four or five grand reasons why der, and Alexandes to Nicholas. Leopold

> the consideration that the poorest of us have all that is indispensable in life. We make a great ado about our hardships, but how little we talk of our blessings. Health of body, which is given in largest quantity to those who have never heart and foodled back? I have been in assemblages when I have been in assemblages when I have been in assemblages. and spoiled by fortune, we take as a many distinguished men have answered. matter of course. Rather have this If I should call the roll to-day of some luxury, and have it alone, than, without of those mighty ones who have gone, I it, look out of a palace window upon parks of deer stalking between fountains and statuary. These people sleep sounder on a straw mattress than fash-toroble invalidation a couch of invariant. ionable invalids on a couch of ivory and eagles' down. The dinner of herbs' better to the appetite sharpened tastes better to the appetite sharpened to the appetite sharpened bell! John Keats! George Crabbe! Robert Southey! Thomas Campbet astes better to the appetite sharpened bell! John Keats! George Crabbe! Robert Southey! than wealthy indigestion experiences artists: Michael Angelo! Paul Verones seated at a table covered with partridge, and venison, and pineapple. The grandest luxury God ever gave a man is health. He who trades that off for all pen, sword, put down forever. When the sum of the sum o the palaces of the earth is infinitely cheated. We look back at the glory of the last Napoleon, but who would have taken his Versailles and his Tuileries if his gout? "Oh," says some one, "it isn't the grosser pleasures I covet, but

ecstacies over its photograph.

our happiness is not dependent upon outward circumstances. You see people while, the straw looking down from the stances. In a family where the last loaf on either side the floor, understands why is on the table, and the last stick of the farmer beat the wheatsheaf with wood on the fire, you sometimes find a the flail. cheerful confidence in God, while in a very fine place you will see and hear answer came: "These are they who, out discord sounding her war whoop, and of great tribulation, had their robes hospitality freezing to death in a cheerless parlor. I stopped one day on Broadway at the head of Wall street, understand that our trials are the very on their brow the anxiety of the dollar They who suffer with him on earth shall they had lost; nor the people who swept be glorified with him in heaven. Be by in splendid equipage, for they met a conter carriage that was finer than theirs. The have. nappiest person in all that crowd, judging from the countenance, was woman who sat on the apple stand knitting. I believe real happiness oftener looks out of the window of an low of his hand allow his children to die humble home than through the opera of thirst? Will he who owns the cattle

glass of the gilded box of a theater. I find Nero growling on a throne. I find Paul singing in a dungeon. I find children to starve? Go out to-morrow King Ahab going to bed at noon through | morning at 5 o'clock into the woods and melancholy, while near by is Naboth hear the birds chant. They have had no contented in the possession of a vineyard. Haman, prime minister of Persia, will dine, they have no idea where they frets himself almost to death because a will sup; but hear the birds chant at 5 poor Jew will not tip his hat; and o'clock in the morning. "Behold the Ahithophel, one of the greatest lawyers fowls of the air; for they sow not. of Bible times, through fear of dying, neither do they reap nor gather into hangs himself. The wealthiest man, forty years ago, in New York, when congratulated over his large estate, rethem. Are you not much better than they?" Seven thousand people in Christ's plied: "Ah! you don't know how much trouble I have in taking care of it." the most improvident people ever heard Byron declared in his last hours that he

days in all his life. I do not believe he had seen twelve minutes of thorough satisfaction. Napoleon I said: "I turn with disgust from the cowardice and selfishness of man. I hold life a horror; death is repose. What I have suffered the last twenty days is beyond human comprehension." While, on the other hand, to show how one may be happy under the most disadvantageous circumstances, just after the Ocean Monarch had been wrecked in the English channel, a steamer was cruising along in the darkness, when the captain heard a song, a sweet song, coming over the water, and he bore down toward that voice, and found it was a Christian woman on a plank of the wrecked steamer, singing to the tune of St. Martin's:

Jesus lover of my soul, Let me to thy bosom fly, While the billows near me roll, While the tempest still is high.

The heart right toward God and man,

we are happy. The heart wrong toward God and man, we are unhappy. Another reason why we should come to this spirit inculcated in the text is the fact that all the differences of earthly condition are transitory. The houses you build, the land you culture, the places in which you barter, are soon to go into other hands. However hard you may have it now, if you are a Christian the scene will soon end. Pain, trial, persecution never knock at the door of grave. A coffin made out of pine boards is just as good a resting place as one made out of silver mounted mahogany or rosewood. Go down among the restng places of the dead, and you will find that though people there had a great difference of worldly circumstances, now they are all alike unconscious. The hand that greeted the senator, and the president, and the king is still as the hand that hardened on the mechanic's hammer or the manufacturer's wheel It does not make any difference now, whether there is a plain stone above them from which the traveler pulls aside the weeds to read the name, or a tall shaft springing into the heavens as though to tell their virtue to the skies.

never heard the foot of the dance. made their wedding tour to the next farm house, or, living in New York, fields in the east for the enrichment of they celebrated the event by an extra sepulchers of kings and lords and mighty Now the genuine American is not men. O the chargin of those men if happy until he is going somewhere, and they had ever known that in the after

trembles now because Xerxes crossed the Hellespont on a bridge of boats? Who fears because Nebuchadnezzar thunders at the gates of Jerusalem? Who cares it to Peter, and Peter to Catherine, and Catherine to Paul, and Paul to Alexanwe should be content with such things as we have.

put the German scepter into the hand of Joseph, and Philip comes down off the The first reason that I mention as leading to this spirit advised in the text, is the consideration that the poorest of us have never been petted, and fondled, where I have heard the roll called, and I call the roll of William Turner! Christopher Wren! No

should we struggle for such baubles? Another reason why we should culture this spirit of cheerfulness is the fact that God knows what is best for his with them we had been obliged to take creatures. You know what is best for his gout? "Oh," says some one, "it your child. He thinks you are not as liberal with him as you ought to be. it is the gratification of an artistic and intellectual taste." Why, my brother, look over the whole field, and you, lovyou have the original from which these ing that child, do what in your deliberate judgment is best for him. Now. What is sunset on a wall compared God is the best of fathers. Sometimes his with a sunset hung in loops of fire on children think that he is hard on them, the heavens? What is a cascade silent and that he is not as liberal with them on a canvas compared with a cascade as he might be. But children do not that makes the mountain tremble, its know as much as a father. I can tell spray ascending like the departed spirit you why you are not largely affluent. of the water slain on the rocks? Oh, and why you have not been grandly there is a great deal of hollow affectation about a fondness for pictures on the part of those who never appreciate been smooth, you would have depended the original from which the pictures are upon your own surefootedness; but God taken. As though a parent should have roughened that path, so you have to no regard for his child, but go into take hold of his hand. If the weather Bless had been mild, you would have loitered the Lord to-day, O man! O woman! that along the water courses; but at the first though you may be shut out from the works of a church, a Bierstadt, a Rubens, and a Raphael, you will still have free access to a gallery grander than the cousness. "What have I done?" says Louvre, or the Luxemburg, or the Vatican—the royal gallery of the noon-day heavens, the King's gallery of the mid-with your flail?" The farmer makes no answer, but the rake takes off the straw, Another consideration leading us to a spirit of contentment is the fact that wind, and the golden grain falls down happy and miserable amid all circum- mow upon the golden grain banked up

Who are those before the throne? The content, then, with such things as you

Another consideration leading us to the spirit of the text is the assurance that the Lord will provide somehow. Will he who holds the water in the holon a thousand hills, and all the earth's luxuriance of grain and fruit, allow his barns, yet your heavenly Father feedeth

might have taken food enough to last them until they got back. Nothing die they take. A lad, who had more wit than all of them put together, asked hi mother that morning for some loaves of bread and some fishes. They were put into his satchel. He went out into the desert. From this provision the seven thousand were fed, and the more they ate the larger the loaves grew until the provision that the boy brought in one sachel was multiplied so he could not have carried the fragments home in six satchels. "O," you say, "times have changed, and the day of the miracles has gone." I reply that, what God did then by miracles, he does now in some other way, and by natural laws. "I have been young," said David, "but now I am old: yet have I never seen the righteous forsaken nor his seed begging bread." It is high time that you people who are fretting about worldly circumstances, and who are fearing you are coming to want, understood that the oath of the eternal God is involved in the fact that you are to have enough to eat and to wear.

Again, I remark that the religion of Jesus Christ is the grandest influence to make a man contented. Indemnity against all financial and spiritual harm! It calms the spirit, dwindles the earth into insignificance and swallows up the soul with the thought of heaven. Oye, who have been going about from place to place expecting to find in change of circumstances something to give solace to the troubled spirit, I commend you this morning to the warm hearted, earnest, practical, common sense religion of the Lord Jesus Christ. "There is no peace, saith my God, for the wicked," and as long as you continue in your sin you will be miserable. Come to Christ. Make Him your portion, and start for heaven, and you will be a happy man you will be a happy woman.
Yet, my friends, notwithstanding all

these inducements to a spirit of contentment; I have to tell you this morning the human race is divided into two classes—those who scold and those who get scolded. The carpenter wants to be In that silent land there are no titles anything but a mason, and the mason anything but a mason, and the banker for great men, and there are no rumb-lings of chariot wheels, and there is anything but a lawyer, and the minister The anything but a minister, and everybody would be happy if he were only some-body else. The anemone wants to be a sunflower, and the apple orchards throw down their blossoms because they are not tall cedars, and the scow wants to be schooner, and the sloop would like to be a seventy-four pounder, and parents have the worst children that ever were, and everybody has the greatest misfortune, and everything is upside down, or going to be. Ah! my friends, you never make any advance through such a spirit as that. You cannot fret yourself up; you may fret yourself down. Amid all this grating of tones I strike this string of the Gospel harp: "Godliness with con-tentment is great gain. We brought nothing into the world, and it is very certain we can carry nothing out; hav-

ing food and raiment let us therewith be content." Let us all remember, if we are Christians, that we are going after awhile, whatever be our circumstances now, to have a glorious vacation. As in summer we put off our garments and go down into the cool sea to bathe, so we will put off these garments of flesh and step into the cool Jordan. We will look around for some place to lay down our weariness; and the trees will say: "Come and rest under our shadow;" and the earth will say: "Come and sleep in my bosom;" and the winds will say:
"Hush! while I sing thee a cradle
hymn;" and while six strong men carry as out to our last resting place, and ashes come to ashes and dust to dust, we will see two sacred feet standing amid the broken soil, and a lacerated brow over the open grave, while a voice, ten-der with all affection and mighty with all omnipotence, will declare: "I am the resurrection and the life; he that believeth in me, though he were dead, yet shall he live." Comfort one another

Sheridan's First Battle.

with these words.

He had just been made Colonel of the Second Michigan Cavalry, and the affair Eyes closed. Ears deaf. Lips is Sheridan's official report of the fight: HEADQUARTERS SECOND MICHIGAN CAV-

ALRY, CAMP NEAR FARMINGTON, MISS., June 1, 1862.—SIR: I have the honor to report the following as the operations of | Norristown Herald. my regiment at the capture of Boon ville, Miss., on the morning of May 29,

My regiment was formed a short distance in rear of the town on the left of the Second Regiment of Iowa Cavalry when I received directions from Colone Elliott, commanding, to take one-half Mobile and Ohio Railroad, leaving the other half of the regiment in reserve, to support me should it be necessary. oceeded rapidly in the direction indibut found no bridge or culvert. I then learned that there was no bridge except were then given to the companies to de stroy the road, by tearing up the track, bending the rails and burning the cross ders from the Colonel commanding to join him at once at Boonville.

a dash was made by a squadron of rebel cavalry at our rear and on the right of the reserve of my regiment, but was handsomely met by the reserve, under command of Captain Campbell, who dis when the enemy came within range re-ceived them with a volley which caused them to break and run in all directions

While passing to the south of the town and along the railroad I captured about 500 Confederate soldiers, 100 of whom had good percussion muskets. The balance, I think, had thrown their muskets away. They were placed along the road to defend it, but made no resis-I turned them loose after breaking up their guns, as we could not be burdened with them in our rapid return

officers and men of my regiments, without a single exception, behaved well. I respectfully bring to the notice of th colonel commanding, Captain Campbell, commanding the reserve; Captain Alger who commanded the line of skirmishers advance, and Adjutant Georg Lee, who rendered important service. My regiment returned to camp without any casualties. Very respectfully, etc.,

A Well-Matched Couple.

A few days ago a Rock county couple came to St. Paul. They had got well along in years and being without children had decided to come to of the regiment and pass to the south of the city and apply at one of the orphan the town and destroy a bridge on the asylums for a child to adopt. While on the train coming to St. Paul they had some discussion on the subject, in which a decided dissimilarity of views cated until I reached the road, then was developed. The wife wanted to down the road one and one-half mile, adopt a girl baby, while the husband insisted that the foster child should be the one at Baldwin, some nine miles a boy baby. She would not budge an farther down, and that defended by three inch from the position she had asregiments and one battery. Directions sumed on the question, and he was equally tenacious to his purpose of adopting a boy-and so they argued This was done with alacrity at the question all the way to St. Paul to four different places by both officers and men, and continued until I received or passengers seated in their vicinity, and they landed at St. Paul with the While these operations were going on problem still unsolved. They went to the Merchants' Hotel and there kept up the argument. The deadlock had not been broken when the time came for their train to leave for home, and mounted a portion of his command, and as each knew the other well enough to realize that there would be no giving in on either side, a truce was declared, and the couple, after all their trouble and expense, returned home childless, as they came. - St. Paul Pioneer Press.

An Average Cook, "How do you like housekeeping, my dear?" inquired Mrs. Matron of Mrs. Newly wed.

change, he says, from boarding-house fare, and he just raves over my cooking. I love to plan and prepare our little meals. Do stay for tea. You really must. It won't inconvenience me in the least. All I'll have to do will be to lay another plate. I have everything all ready and will only have to speak to our girl and tell her there is to be one extra."

And when she spoke to the girl she said:

"Run around to the baker's and get a dozen fresh rolls, a pound of assorted cake, and some lady-fingers. And stop at the grocer's and get some canned beef; and get some cold boiled tongue at the delicatessen store, and a jar of raspberry preserves and some tarts. I guess that'll be all we want but the tea-and you can make that."

The Hound's Mute Farewell.

An old hunter in Mexico gave to the author of "Summerland Sketches" his experience with a favorite hound, which exhibited feelings that would honor

"You have no idea," he said, "how they get used to you if you are alone with them for weeks together; the vorst of it is that it comes so awful hard on a fellow to lose a creature of that kind.

"I bought a fine Scotch deerhound in Baltimore in '66. I had him nearly eight years and I tell you, sir, I felt like shooting myself when I lost him. The Mexicans poisoned him because he wouldn't let them come near my smokehouse at night.

"No square, straightforward poison, either, for it took him a whole week to die. It just went through me like a knife to hear him whine, and perhaps I ought to have put him out of his misery, but I was thinking of all the scrapes we had helped each other out of-we had frozen and starved together all over Texas and Arkansas-and I couldn't kill him while there was the ghost of a chance of his pulling through.

The voice of the old rough became inarticulate at the recollection. He had spread the dog's couch at the side of his own bed, and patted his shaggy coat till he lay silent and motionless.

But late in the evening when the logs in the fire-place had flickered almost to their last, the hound raised his head and placed it on his master's arm, looked into his eyes and sank back dead, like the last pressure of the dred. Paying For the Colt.

About seventeen years ago a farmer amed Gleason, living northeast of Inlependence, one morning found one of his colts dead, and there was certain evidence that it had been killed by some one. The young man supposed to have killed the colt left the country about that time, and very little was heard from him until last fall, when it was learned that he had been converted and had joined the church. A short time ago the young man returned to Buchanan county for a visit. While there he went to Mr. Gleason's farm,

and, meeting that person, said:

"I believe you lost a colt several years ago."

"How much was it worth?" was the next question. "About \$80." "Will this pay for it?" said the visitor, handing out \$100. out \$100. "Yes, and more too," said Mr. Gleason, handing back \$20. The other person took the \$20 and departed, starting for Nebraska that day. This s the kind of religion that is needed. -Independence (Iowa) Journal.

A noted Gretna Green, of the North-Mississippi Valley, is Fairplay, a quaint old settlement in the southwestern part of Wisconsin, near the state line. Here hundreds of runaway lovers from Iowa and Illinois have been united in the bonds of matrimony after escaping the vigilance of parental opposition.

Russell Sage is the director of three banks, and it is seldom that he misses a meeting. For each meeting that he attends he receives \$10. Mr. Sage, it is said, calculates that the money he earns as a bank director will pay his butcher and vegetable bills.

White veils may usually be taken to mean a slight degree of fastness. As for red ones, any woman will wear a red veil if she's been crying. When I see a red veil coming in, I always look for, and generally find traces of tears behind it."-Chicago News.

# Economy in Dressing.

On Sixth avenue there is a sign which sets forth that wi hin millinery is taught at a reasonable sum, and young woman, here are traine ever increasing out to trim omical won all the simple go at home by the aid of a sewing wo- Dumb Animals.

man, who comes by the day. This woman, however, has to have a pretty good knowledge of her trade or the home-made clothes are not a success. The economical housewife has been able in this way to cut down the expenses of her clothes, but unless she happened to have a special talent for bonnet trimmings she was obliged to have few or reluctantly pay out all she had saved in dressmaking to her milliner. Now this problem has been solved. The Sixth avenue firm takes apprentices in the art of bonnet-making and teaches it to them thoroughly in every department. When they are graduated they are warranted to be able to trim bonnets which, if exposed in the windows of fashionable Fifth avenue shops, would be easily mistaken for imported "creations." These young women then go out by the day at prices ranging from \$1.50 to \$3, and can, according to their skill or the elaborateness of the headgear they are at work upon, make from two to three hats or bonnets a day. The difference saved by this process can estimated after some such fashion as this: A bonnet frame costs at wholesale about six cents, or at the retail shops from 18 to 25. Three-fourths of a yard of best milliner's velvet, \$1.50; flowers; feathers, or ribbon rarely costs more than from \$3 to \$5; this, with the cost of making, makes the total from \$6 to \$8, and this for a bonnet which could not be purchased in the shops under \$15, and probably as high as \$30. A clever woman who knows well where to spend her money and how to save it went to Paris last season and had her gowns made there, as is possible, for about one-half the sum they would have cost her in New York. Then she took samples of each material composing these costumes in her pocket and set out to shop for hats. At the Bon Marche she found they were having a bargain sale in millinery, and bought then and there a hat and its trimmings to mach each and every grown, the whole purchase costing her \$22. These she brought home, sent for her milliner girl, who staid three days and with her help completed nine hats, which all told cost her just \$28.-

MRS. EMMA C. HEWITT. "Stephen," sad Mrs. Wilson in a fretful tone, "don't you see the latch

is off the front gate?"

"Yes," indifferently. "Aren't you going to put it on?" "Sometime, maybe," and the boy continued his absorbing occupation of flicking the flies from the window-

"I never saw anything like it," fretted Mrs. Wilson as she left the room. "The children are all alike. They do nothing but worry me to death all the time, and they don't seem to care one cent."

This appeal did not have the slightest effect upon the mighty hunter of the flies.

Miss Renier rocked herself to and fro in a great state of perturbation. She did despise "old maid aunts who interfered with their nieces and nephews," but it was hard work to hold her peace now. Finally human nature could endure it no longer and she said:

"Aren't you going to fix that gate for your mother, Stephen?" "Not if I know myself, at least not

just now." "Why not?" she demanded, rather sternly.

"I'm going to leave her something to fret about. She worries and frets so about everything that it does me good to see something really worth it

"I don't think that's exactly the way for a boy of seventeen to talk of his mother.'

"No, perhaps not, aunt Ellen, but let me tell you one thing, and that is, that a boy of seventeen sees a parent's faults as well as anybody. There comes a time in everybody's life when he hegines to gauge his parents as man and woman. His affection for them does not change, but he sees their faults, as he sees those of the rest of humanity. All my childhood our household was uncomfortable, and I never knew exactly why, although I felt the difference between my home and that of some other boys I know. You've never been here before, but you'll see. You'll find out what I found out, that the

"Just look at that carpet," she exclaimed, the same fretful frown on her face, "all the corners turned up. I never saw anything like it. I suppose Stephen kicked it up. You may be his counter and continued: If you wanted something that I couldn't thankful, Ellen, you never married and had any boys. They are enough to drive anybody distracted. Where is he now?'

> "I really don't know; perhaps he has gone to mend the gate.'

"I suppose he has, just as I wanted him to go on an errand; he's never on hand at the right moment. Stephen! After the man had bounced out I Stephen," she called, in rasping

"Well?" Came from the distance. "I want you to go on an errand,"

"Can't I fix the gate. I have just got all the things out and it will take ers who seem to set the fashion in name of everything we have in the so long to put them all back again? It depth for all the women in Chicago. store, and when he asked for some- won't take me a minute to fix the gate," called Stephan in reply.

"No! You must go now. Good gracious! I never saw a boy take so long to put away a few tools. What have you been doing?" No reply. "What have you been doing?" in a louder tone.

"You know perfectly well," fired up the boy, "that father always makes me put the tools away exactly so in the chest, and it takes a good while." "Well now you can go down to the store, and get me the buttons for your shirts, and let me see if you can be as long about that-"

Naturally Stephen, thus admonished, started out in anything but a pleasant

"Now, Ellen," she said, "you've been here two days, and I just ask you, did you ever see such a disrespectful, indifferent boy as I have? I've done everything in the wide world for that boy. Wait, there's James! James. did you know the latch is off the

"Yes, wife," answered good-natured Mr. Wilson, easily.

"Did you get the flour? I wish I had told you to get a hundred pounds instead of fifty. We might just as well have had a hundred."

"I got a hundred, wife. It'll be up this afternoon."

"Since I've come to think of it, I think a hundred is to much; what made yout get a hundred, James? I never saw such a thoughtless man. What am I going to do with a hundred "O, I'll fix a place for the other

fifty.'

"Yes, and have the mice eat it all meander home singing. Lid you ever up," in an injured tone. "No; I supplace for that flour," and she left the room. With a sigh Mr. Wilson seated himself to read the paper till dinner time. Soon Stephen appeared with the buttons which were received by his mother in an anything but gracious

About three o'clock in the afternoon Cousin Ellen said to Mrs. Wilson: Don't put too much sweet stuff on Maria, I'll help you sew those butpaper. If you do you may hear it tons on Stephen's shirt any time you are ready.

> "Oh, no, I don't mean to sew them on to-day. I only wanted the buttons so as to have them. What is the matas a curious expression flitted over Cousin Ellen's countenance.

> "I don't feel particularly funny," I do not know why I should look so-" "Oh, pshaw! I didn't mean funny that way, I meant you had a very cur-

Miss Renier hesitated. Should she tell this cousin of hers, whom she had

Something To Fret About. | not seen for so long, the truth? She I them for me when you know how dog. decided that it would be the kindest | tired I am."

"I suppose I looked as you say I did, because I was trying to fit together two parts of a story. Will you tell me just why you insisted on Stephen going for those buttons just when you

"Certainly!" dec'dedly, the color mounting to her face. "He seems perfeetly indifferent to pleasing me lately, and its my private belief that he only started to fix that latch because he thought I wanted him to go. I've adopted the plan lately of having things done at once and then they're done. Everything he does for me he does unwillingly, so that he might as well do it first as last."

"You're all wrong-all wrong, depend upon it," and Mrs. Renier shook

"You don't know anything about it, Cousin Ellen. You never had Stephen to deal with."

"No, but I've had men and women to deal with, and I can see very well where most of the trouble lies." "I wish to goodness you'd tell me

then. The way I work and slave for James and Stephen never was beaten. and they don't seem to try to please me one bit." "Do you try to please them?"

"Try to please them?" in angry astonishment. 'Don't I work my finger ends off for them?" "I didn't ask you that. I asked you

f you tried to please them." "If you'll tell me what you mean (for it seems very ridiculous to me,)

I'll try to answer. Then Cousin Ellen talked a long time and told Maria just what she thought of her, but she told her very gently and kindly. Mrs. Wilson was more than astonished to see herself in this light; she, the abused one, creatng all this disturbance? She didn't believe it. However, she promised Cousin Ellen she would try her way just to show her that all she. Maria.

could do wouldn't make any differ-At Cousin Ellen's suggestion, she went to the door to call Stephen to

end him on an errand. "Wait!" said Miss Renier, don't call him while you look like, that. There, now, the wrinkles are gone, now call him gently and pleasantly."

Stephen looked up from his work with a start at the new tone in his mother's voice, but answered pleasantly in return: "Well, mother?"

"Can you go on an errand for me?" "Can you wait about ten minutes, pecause I will be done then?"

"Not very well, I would a little rather that you would go at once." "All right," and the nimble Stephen was off as soon as he could arrange

matters in a shape to leave." "O, well! that's only once," said Mrs. Wilson, in answer to a questioning look from Miss Renier. "He just happened to be in a good humor."

"Do you know why?" It was because you put him in one by addressing him pleasantly,"

When Stephen returned rather later than he should have done, he said. "I was a good while, mother, but I saw some wild roses you like so much, and when I went to get them I fell into the

"O dear! and got the silk all wet, I suppose," began Mrs. Wilson, fretfully, without a word of thanks for the thoughtfulness.

A hard, set look came over Stephen's face, where a moment before only penitence and affection shone.

"It's not worth while for you to get on one of your sulky fits, young man;' began the mother in a threatening

Throwing the undamaged silk into his mother's lap, Stephen rushed away, being careful, however, to slam the door after him as emphatically as pos-

"You see, Cousin Ellen," began Mrs. Wilson, plaintively, "it's just as I told you; that boy has a vile disposition. I'm sure he doesn't get it from me."

"No," thought Aunt Ellen to herself, sarcastically, I don't bolieve he does get it from you; for you surely have lost none of yours." This is what she thought, but aloud she saidnothing.

"What are you thinking about, Cousin Ellen?" asked Mrs. Wilson, after a while, uneasy and uncomfortable in the unbroken silence.

But before she had time to reply, James drove up with a hearty "Come on, Cousin Ellen. Get on your duds and drive to town with me."

Off she went glad of the respite, and through the long lanes and by the green fields her perturbed spirit found

The discontented look had not worr off Mrs. Wilson's face when they returned. She opened her lips for some remark, but her husband anticipated her with:

"Wife, you haven't got that place fixed in my coat yet. I saw it hanging in the closet. I'll be bound you'll forget it. I want it Sunday, too."

Mrs. Wilson was too much amazed to reply, and her husband went off to the barn for once, without some fretful last word flung after him. "There isn't enough sugar in my

coffee, Maria," said he, ar he sat at Particular About the Make. supper. "It is very strange that I can't have my coffee right! There, now, it's too sweet! I knew it would be so." Mrs. Wilson again had nothing to say, and Stephen stared at his

father in open-mouthed astonishment. Mrs. Wilson began to be anxious. Surely James was going to be sick, she thought. Never, in all the years of their life had she seen him like this. While poor Stephen thought to himself, that if father was going to be like that, too, the sooner he left for more comfortable quarters the better. "Where are my slippers, Maria?" asked Mr. Wilson, in the same fretful

tone. "In the closet."

'Here they are. James," answered Mrs. Wilson, meekly, thoroughly subdued by her fear of James' prospective illness.

Those are my best ones, bring me my old ones since I've come to think of it, I'll take my best ones," he called after her, just as she had successfully made the change and was re-

turning with the old ones. After a weary evening, which Mr. Wilson spent in fretting; Mrs. Wilson, in subdued silence; Stephen, in setting out under the trees in the dark, whistling to himself in a dejected manner and wondering what was to be the outcome of it all; and Cousin Ellen in serenely knitting, while she put in a word here and there, not seeming to notice Mrs. Wilson's ill-humor. After three or four hours of this discomfort, the family found themselves preparing for bed.

Tap, tap, tap, came softly at midnight on Cousin Ellen's door, accompanied by a whisper "Cousin Ellen,

may I come in?" A cordial permission granted, the poor woman entered and flung herself on Cousin Ellen's bed, bursting into a flood of tears.

"What shall I do! What shall I do!" she sobbed. "What is the matter, Maria?" asked

Cousin Ellen, with as much solicitude as she could command for the occa-"O, Ellen I think James is losing

JOKE ON A LECTURER.

How Congressman Martin Once Disputed the Statements of an Astronomer.

About a third of a century ago, says a Dallas letter to the St. Louis Globe-Democrat, a New Yorker was traveling through Texas lecturing on astronomy and illustrating his lectures with globes, charts, and magic-lantern pictures. He evidently possessed more enthusiasm in the interest of sience than he did practical common sense, or he would never have fallen into the trap delibeberately set for him and become the subject of the following practical joke. The lecturer arrived at Athens and distributed his several hundred persons who were interested and astonished. He told them how the planetary system was arranged; how the sun stood still and all the other planets revolved around it. He explained to them that the earth was round and revolved on its axis once in every 24 hours.

After the lecture was concluded a rough-looking young man arose in the and ence and said, addressing the lec

"Sir, do I understand you to say that the sun stands still and that the earth turns upside down once every

The lecturer replied that the sience of astronomy so taught and that he so believed.

The young man-who was none other than Bill Martin, a young lawyer. Howdy Bill Martin," of Texas-"Nonsense! losing his mind! Where challenged the lecturer to a joint discussion of the question. The chal-"Didn't you hear the way he talked lenge was immediately accepted, and it was agreed to leave the decision to what of that? He seemed to me very ities. If the decision should be in favor of the lecturer Martin was to pay lawyer the lecturer was to leave all earn an honest living, as Martin expressed it. The joint discussion began the next morning and continued and fast, into the New Yorker. He "Why, no! of course not, But then, quoted scripture, and especially the to stand still. He appealed to the If Cousin Ellen had spoken then she common sense of the people, many of "Bosh!" But she held her peace a few to Texas and had never seen any evidences of the roundity of the earth. "See here, Maria," she said, "I have He accused the lecturer of trying to but little patience with the people who fool the people with his new-fangled flatter themselves that they 'can't ideas, and trying to lead them astray help' speaking when things are un- from the faith of their fathers. The Fastest Train in the World.

Most persons who travel on the Continent of Europe are well aware that the speed of express trains there is considerably slower than that of English express trains. Two or three trains on the Lyons and Marseilles Railway come perhaps nearest to the English standard of performance. On the Italian lines it is customary to resort to the refinement of having three classes of trains, "ordinario," "diretto" and "espresso," but there does not seem much to choose between them. The Railway Press corrects our vague impressions by the test of figures, and gives us the exact ratio of our expresses to those of foreign countries. Our English expresses all run at a high rate, but since the acceleration of the Manchester and London expresses, one or two of the Great Northern trains carry off the palm. They run at an average of 48 miles an hour for the whole journey, including stoppages and the exceedingly heavy bank at Penistone. The bit between Grantham and London is done at the rate of about 64 miles an hour. These achievements, however, are very closely approached Any girl who has been well brought by the other great lines, France and Germany follow with an average of about 36 miles an hour, Holland, Belgium and Austria-Hungary follow with 33 miles an hour, Italy with 291 fix the gate yesterday? He told me pursue. She will feel, without a word miles an hour, Spain and Switzerland with 22 miles, and Portugal with 181 miles. America runs us more closely,

WE have searched the tariff schedule through and through to find the injustice of which the Sentinel complains, but all in vain. The schedule says, "all other articles of sawed lumber not elsewhere specified—and mahogany is not otherwise specified-not planed or finished \$2 per M Will the Sentinel turn on the light

AINSWORTH R. SPOFFORD gives the price of wool for 1860, the last year of free trade, at 34 cents, lowest, and 40 cents, the highest. The Argus of last week gives it as 48 and 54 cents, and in the same paper says that Spofford's statistics "are appeal ed to by all parties as accurate, and which figures are computed only from official sources." We suggest to the Argus that he make an honest effort to pull himself

IT seems to us that the statements of barbarous treatment of political prisoners in Irish jails demand the attention of the people of the civilized world. They are supported by authority sufficiently respectable so that they cannot be reasonably ignored; and if true, the common protest of enlightened mankind surely ought to be formally uttered. Such investigation as would leave no uncertainty in the mind of any unprejudiced person should be made, and then such expression as the facts shall demand from the humane and especially in America, should follow. The recent death of Mr. Mandeville, said treatment by authorities in the jail, calls fresh attention to the subject.

THE plank in the republican platform calling for a reduction of letter postage to one cent per ounce, is a practical relief from the burden of unnecessary taxation The postal service of the country should lay as light a burden of taxation upon the people as possible. It should never look to revenue beyond the actual cost. Experience proves that the extension of the use of postal facilities, owing to lower rates, soon brings to the government as much revenue as the higher rate. Even now, after the last large reduction of rates, the service has reached almost a paying basis. So it will be, if they are changed to one cent. Here we find a good chance to relieve the people and reduce the surplus. Thousands of dollars will, by this means, be kept in circulation, in the avenues of trade, while the people even though poor, can indulge the "luxury" of friendly intercourse without limit.

THE Mills bill passed the House Saturday, Messrs. Goar of Iowa, Fitch of New York, and Nelson of Minnesota, (reps.) voting with the democrats, and Messrs Sowden of Pennsylvania, Greenman and Bliss of New York, (dems.), voting with the republicans. Mr. Randall of Pennsylvania, being sick, asked to be paired with some friend of the bill, as he would vote against it if able to reach his seat. It now remains to be seen whether the Senate will allow it to become a law. The republican majority is only two, and it would not be the strangest thing in the world, should there be found two among them, as there were three in the House, who have been repudiated by their party like Nelson of Minnesota, or who hold their position by democrat votes like Fitch of New York, to vote for the bill. Then, too, it may be the purpose of providence to punish the people unto whom has flowed such abounding prosperity under our present policy, and who are now grumbling, like the children of Israel over their breakfast, or kicking like Jeshurun, els of barley which paid 10 cents a bushel after he had become fat from over feeding, and so will bring about sickness or the accidental absence of a few members, as | brewery vestibule, to squeeze the farmers was the case with Whiting (dem.) of this 10 cents a bushel on the produce of their state. WHY WE WANT THE TARIFF.

We sometimes meet the inquiry: "If the tariff gives us goods such as are manufactured in our own country in abundwhy retain the tariff?" This is a proper question and deserves a candid answer.

people, to become so far as possible com- Last week, "railroad ties"—which are on mercially independent, and this can only the free list-were shaped, by his distemmarket. They should manufacture every thing they use so far as natural advantages will allow them to do so with reason- tive, and will find it when he recalls the able facility. This does not imply that fact that the people, farmers included, States boasts of her political independence, but no one claims because of that, that diplomatic relations should not be sustained with foreign countries. In the same But political independence without commercial independence becomes little less than a shadow. Turkey offers a good illustration. While she enjoys, nominally, political independence or statehood, she as any one of the English colonies. The and commercially independent, and the brightest pages of her history were written during that period. Her armies thundered at the gates of every imperial city of Europe, and were the terror of every crowned head that devised her overthrow; the homes of the land were abodes of comfort and the scene of manifold industries. In the evil hour, in 1838, when she abandoned her system of tariff protection at the solicitation of England, and accepted British gold in lieu of revenue exacted of British merchants, that day her glory faded, and her crescent disappeared as a symbol of national prowess and vigorous national life, from among the nations of the earth. This is the voice of history and the long years of her poverty, feebleness and humiliation, which the student reads with amazement and sorrow, are the time-measure of her industrial and commercial servitude. Turkey is as much the vassal of England to-day, as she would be, had she been conquered and subdued at the mouth of British connon, aud in the

Before her surrender to the insinuating approaches of free trade, Turkey was a hive of industry; to-day, individually and nationally, she is an idler and a pauper, asking alms of proud and haughty England, the author of her ruin and the usurper of her throne and her prerogatives. It was a bloodless revolution, it is true, but none the less disastrous. It was planned and executed in the name of free trade

To-day England asks of us, the surrender of our commercial independence and woos us with the same sweet voice and velvety touch that deceived the once powerful but now languishing Turkey. She says she will give us cheaper goods; so she promised Turkey. She says she will fies its latest utterance on "home rule," by bless our poor; so she promised Turkey She will loan us money to build our thoroughfares of trade; so she promised Turkey. Turkey took her cheaper goods the poor received her blessing, and the thoroughfares were builded, and to-day Turkey is clothed in rags, the "blessings' upon her poor are cruelty, and her thor oughfares are military highways to compel submission, while the tax gatherer forces from her an unholy tribute.

Do the people of this country want commercial servitude? Do they want cheaper goods, at the expense of sacrificing enlightened in all parts of the world, and their rights to earn an honorable living at fair wages? Do they want the "blessings' on their poor, that stop the loom, transmuto have resulted from barbarous and cruel ting as it does their strength into food and other comforts of life? Do they wish to be manacled by foreign chains, because the links are formed of gold? Let them read the history of Turkey, learn what 'free trade" has done for her, and if the result commends itself, then let them imitate her example, by surrendering without tribute, their markets to foreign goods.

Protection means independence, comfortable homes, good wages, as the record of the past twenty-five years of our history shows. Free trade promises cheap goods, with individual poverty and national servitude, thrown in as a gratuity, as Turkey has proven. The tariff has given us our fluctuation except from local causes under | tempt to get around it would take too long

Our disingenuous, or heedless, friend, the editor of the Sentinel, noticing our expression of belief that the total abolition of the internal revenue tax on whisky would prove a valuable temperance measure, says he wishes we "would go right to work at the job" of showing that. It is not a new trick, nor a very brilliant one, to none have been offered, make a lofty dethe last two years, and during the last three months; and we do not feel called upon to restate them whenever the Senti nel may chance to wake up and call for them. It was kind in our neighbor to give us all the time until election, for the work, and it will evidently all be needed if we are to bring it to his comprehension. After election will do for him, however. He couldn't change his spots before that, if he were convinced now.

Ir is found that the maltsters of the country are solidly free trade, and farmers can easily see why. Last year, there were imported into this country, 10,000,000 bushduty. Now, if that duty is removed, how easy it will be for these gentlemen of the ers, the sweet, sweet song of free trade, but on their barley. "When in the presence plies "right well" to the maltsters.

It is astonishing how vigorously our neighbor of the Argus can scratch around on the surface of a subject and never get below the surface. Like an old hen which, ance, as cheap as free trade would give, for prudential reasons, had had her toes clipped, he tries to make up in activity, for his lack of penetrating power, and suc-In the first place, it is the first duty of a ceeds simply in filling the air with dust. be done by jealously guarding the home pered imagination, into a great ogre, lying plumb across the prostrate, writhing forms of our farmers. Clearly, he needs a seda they shall have no dealings with the out- have built over half the rail roads in the side world, any more than it does, to be country. The laboring man has, as a free politically independent. The United gift, given his muscle, the farmer, his land, the mechanic and local capitalist, their money, to build these thoroughfares, because of the advantages and conveniences they afford. The tax payers in this section accommodated sense should be understood | are still paying the money they voted to the condition of commercial independence. the Hillsdale road. In view of these things, the government put railroad ties on the free list, so reducing the cost of construction, and, thereby, the contributions necessary to secure transportation for our produce and supplies. Isn't that is as much the subject of British dictation so, Bro. Argus? Ana yet, you would lay a still heavier burden on the back of time was when she was both politically farmers, by making them pay an extra price for "ties." Really, the tender mercies of the free traders are cruelty.

> THE last issue of Harper's Weekly takes vigorous exception to the slow action of the Senate in confirming the nomination of Mr. Fuller, for Chief Justice of the United States, and can see no reason for the delay, except in the partisan spirit of the majority. We do not believe the people of this country sympathize with the idea of hasty action when so exalted a position as the one named, is in question They have too much pride in the past stand ing of the Supreme Court, to take any unnecessary risks in so important an appoint ment. It can be said of Mr. Fuller, with out disparagement to his qualifications that up to the time his nomination was made, he had little more than a local reputation, and it was no more than the part of wisdom that the final action should be only after due deliberation. It will be remembered, also, that grave charges were preferred against the candidate, and time was required to prove the truth or falsity of them. It seems very strange that a journal can sink so far below its former standard for fairness, and dismiss its self respect by venting its petty spite in a manner so little to its credit. Still, it might relieve itself of some degree of censure, and strengthen in a measure at least, its claims to honorable intent, had it ever uttered a protest against the injustice done to Dakota in keeping her out of the Union. Here is a case which, in the mind of every fair minded man, justly calls for condemnation, and were Mr. Curtis the political saint he claims to be, he would reserve a little of his venom for the democrat party which for purely partisan purposes, falsirefusing to a vast state, that same sacred

> Two gentlemen of some note, whose names are Grover Cleveland and Allen G Thurman, have been strolling along to Washington, the other, to Salt River Set tlement. Right in the road to Washington and square across it, absolutely stop ping all passage, these gentlemen find the following obstruction:

> Thurman's Speech-1884 "My Friends, you will never have any genuine reform in the civil service until you adopt the one-term principle in reference to the presidency. So ong as the incumbent can hope for a second term he will use the immense patronage of the government to secure his reflection. I repeat, until that principle be acted upon, you will have no genui:

Cleveland's Letter-1884. "When we consider the patronage of this great office, the temptation to retain place once gained we recognize in the eligibility of the president fo reëlection a most serious danger to that calm, de iberate and intelligent action that must character ize a government by the people.'

At last accounts, they were busy seeking ome way to get around this obstruction Everybody they see, they try to draft into the service, but to no purpose. To climb over it, is impossible. To dig around it, would require a steam drill and dynamite. markets and insures freedom from sudden and they fear getting blown up. To atour control. It satisfies the conditions of and be fatal to their plans. Another abiding prosperity, and hence the wisdom | might occupy the place they seek, before of our people in demanding its continu- the journey could be made. Lots of their "friends" all over the country, with little paper slips in their hands, point to the other fork and promise them help in that direction. A later report may bring more particulars.

APPLEJACK will be applejack next year unless the farmers of Orange county, N Y., repent of their purpose to refuse their apple crop to those who will use the fruit coolly ignore considerations offered in sup- to make whisky with. The county is said port of a proposition, and, assuming that to be famous for applejack which may be found in the cellars of nearly every farm mand for reasons. We have repeatedly er in the county. But these hardy sons stated reasons why we so believe, during of toil have taken lately to abstemious ways, and declare that, henceforth, not ar apple shall be used to intoxicate. This is a hopeful sign for New York, and fortunate will it be for the state at large should the example set by Orange, become infectious
